June & July Edition, 2025

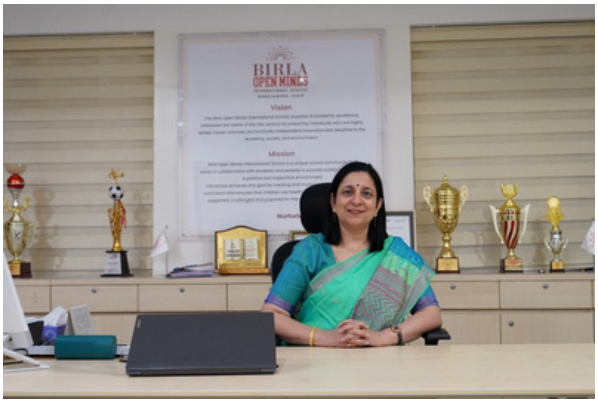

From Principal's Desk

Dear Parents,
It is always a pleasure to connect with you through this platform, where we share the efforts and achievements of our students, teachers, and school community.
The month of June began with intensive training sessions for our teachers, where they revisited and strengthened their understanding of the specially designed Birla Curriculum, developed by a team of academic experts. We welcomed our students back with great enthusiasm.
Our learners from Grade 5 and above actively participated in the Investiture Ceremony and proudly elected their school council leaders. This year, we also introduced something new—an engaging Parents' Chess Tournament. It was heartwarming to see our enthusiastic parents come forward, participate with full spirit, and give a tough competition to one another.
As we strive each year to provide the best opportunities for our students, we are delighted to announce the upcoming Birla MUN, scheduled for 29th, 30th, and 31st August. Students from various schools will be joining us in this enriching event.
The journey doesn't end here—we are also introducing two more personality-shaping programs for our Grade 9 and above students:

- International Award for Young People (IAYP) Programme
- TED-Ed Programme

These initiatives will not only help students in their personal growth but also provide them with platforms to develop essential life skills, including confidence and public speaking. The TED-Ed programme, in particular, will give our students a chance to share their ideas on a global stage.
Thank you for your continuous support and trust. Together, we believe in nurturing our students to become confident, compassionate, and capable individuals.
Warm regards,
Nishi Rana
Principal

Vice Principal's Desk

The Power of Reading: Building a Culture of Lifelong Learners

Reading is so much more than an academic skill—it is the foundation of learning and, in many ways, a window to the wider world. In today's busy, technology-driven lives, the quiet joy of reading often gets overlooked. Yet it is through reading that children not only gather knowledge but also learn to imagine, to feel deeply, and to think for themselves.

As Dr. Seuss reminds us, "The more that you read, the more things you will know. The more that you learn, the more places you'll go."

At our school, we want reading to be more than a classroom task—we want it to be a culture. A child should see books everywhere: in the library, in assemblies, in the corridor corners, and even in everyday conversations. Because a child who reads is a child who dreams, who questions, who connects, and who reflects.

Books open doors to lives and perspectives beyond our own. A story from another culture can spark empathy, a poem can stir emotions, and a science book can ignite curiosity. Each page turned shapes a child into not just a better student, but a more thoughtful human being.

As George R.R. Martin beautifully wrote, "A reader lives a thousand lives before he dies. The man who never reads lives only one."

This is where we, as educators and parents, play a vital role. When children see us read, when we share stories at home or discuss a book with them, they begin to see reading not as homework but as a way of life. Reading for pleasure—not just for grades—plants the seeds of a lifelong love for learning.

Let us remember the words of Margaret Fuller: "Today a reader, tomorrow a leader."

Together, let's nurture a community where books are trusted friends, libraries feel like safe havens, and children discover the magic of words at their own pace and with their own joy. When children read because they want to, we truly prepare them to be learners for life.

With warm regards,
Vice Principal
Sunita Kapoor

From Headmistress

Dear Parents,
As the doors of Birla Open Minds open to a brand-new academic year, the atmosphere is filled with excitement, energy, and fresh aspirations. Each new session brings with it endless possibilities — a chance for our students to set new goals, explore uncharted opportunities, and create lasting memories of joyful learning.

At Birla, we firmly believe that education is most impactful when it is a shared journey between the school and parents. Learning becomes truly joyful and meaningful when it is supported by strong partnerships and active collaboration. Beyond the formal parent meetings, we strive to create informal yet purposeful platforms where parents can connect with the school community in a more personal and engaging way. Initiatives such as *KitKat Chit Chat*, *Grandparents' Day*, and many other interactive events are designed to celebrate togetherness, strengthen bonds, and make learning a collective experience for our young learners.

In the coming months, we are excited to introduce more such opportunities that will bring parents and children together as co-learners. These initiatives will not only enhance parent-school collaboration but also create meaningful learning moments for our young learners.

With your continued support, encouragement, and active involvement, we are confident that together we can nurture our children into lifelong learners who embrace values, knowledge, and skills that go beyond the classroom.
Let us look forward to an enriching year of joyful learning and growing together as one strong Birla family.

Regards,
Narmada
Headmistress

Little Clouds, Big Showers

Children were introduced to the wonders of nature and weather. We conducted an exciting “Making Rain” activity in K2 classes. The children were amazed to see how rain is formed through a fun, hands-on experience . Using simple materials like a reusable box ,cotton, water and blue color, they observed how clouds hold water droplets and release them as rain.

This activity not only sparked their curiosity about natural phenomena but also enhanced their observation skills and understanding of the water cycle. The little ones were thrilled to watch “rain” falling right in front of their eyes and enjoyed connecting it to the rainy season they experienced outside.

Little Hands at Work – Handkerchief Cleaning Activity

Our tiny tots from K1 took part in an exciting Handkerchief Cleaning Activity that turned into a joyful learning experience. With sleeves rolled up and bright smiles on their faces, the children eagerly dipped their little handkerchiefs into soapy water. They carefully rubbed, rinsed, and watched in wonder as their cloth turned sparkling clean.

This activity was more than just fun — it taught them the importance of personal hygiene in a hands-on way. Children also developed life skills such as responsibility, independence, and fine motor coordination. The giggles and cheer as they hung their clean handkerchiefs out to dry made the classroom atmosphere lively and vibrant.

Moments like these remind us how simple tasks can create big lessons — teaching children that cleanliness is not just a habit, but a way of caring for themselves and their surroundings.

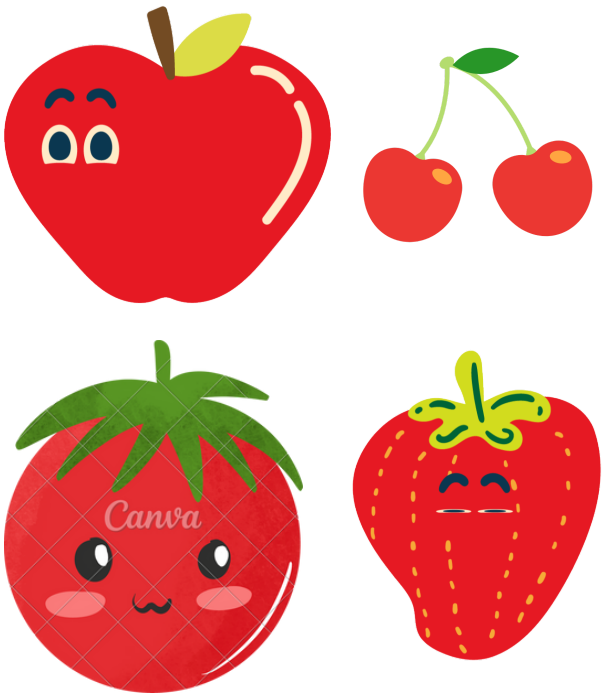

Seeing the World in Red!

The Nursery children celebrated Red Day with great joy and enthusiasm. Dressed in bright red outfits, the little ones explored the colour red through fun activities like identifying red objects such as apples, tomatoes, and flowers.

They enjoyed red-themed coloring and craft work, and a special takeaway was made using red gelatin paper — when children looked through it, everything appeared red, making the activity even more exciting. This celebration helped them recognize the color red, improve vocabulary, develop fine motor skills, and experience learning in a playful way while enjoying time with their friends.

A Heartfelt Grandparents' Day

Grandparents' Day in Birla Open Minds was celebrated with warmth and love. Our Grandparents were welcomed with a flower as a token of respect and affection followed by which grandparents enjoyed getting clicked near the selfie booth.

The celebration began with a welcome address followed by a soulful song performance by our K2 children that highlighted the love and wisdom grandparents bring into our lives. Our Tiny tots proudly walked hand-in-hand with their beloved grandparents.

The highlight of the day was fun-filled interactive game sessions, our graceful grandmothers having nice grooming sessions like mehendi, nail art and even our energetic grandfathers were seen having a tattoo done.
Grandparents day was not just a celebration. It's a tribute to the roots of our families, the keepers of traditions.

A Day to Celebrate Love beyond Measure-National Parents Day Celebration

A tribute to Love, Sacrifice and Guidance.

Students of K2 showed their flexibility and energy by performing some amazing Yoga Poses, PE formations and Zumba. Some of our children took on the centre stage to express their love and gratitude to the parents. Our Parents were also not let behind and were guided through some facial yoga exercises.

The celebration began with a welcome speech, followed by mesmerizing performances like welcome dance by our Nursery children and songs performed by our K1 Children which showcased the bond between parents and our little ones.

The Parents were welcomed with handmade art as a token of love followed by some posing sessions near the selfie booth.

National Parents' Day was celebrated with heartfelt enthusiasm and gratitude honoring the unwavering love and dedication of parents.

The event was concluded by an energetic Zumba performance that was a perfect blend of energy, fitness and fun. The atmosphere pulsed with rhythm and joy.

Morning Assembly- A Glimpse into our Daily Inspiration

The morning Assembly sets a positive tone for the day, instills discipline and fosters a sense of unity among students and teachers.

The children also enjoyed a fun workout and a special act by the children presenting the assembly. The assembly concluded by singing the National Anthem and a round of applause for our young performers.

Our Little Pre-Primary children assembled in neat rows with great energy and enthusiasm. The day began with our little students presenting the assembly with soulful prayer, followed by pledge, thought of the day and word of the day.

Grade 1 Activities

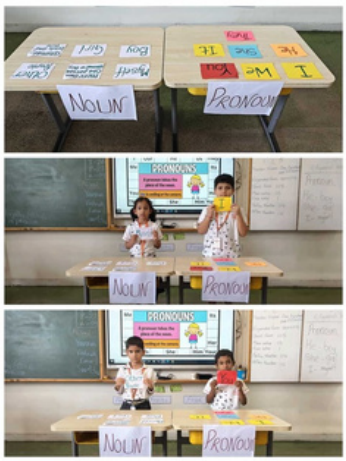

Pick and Check" Activity Brings Naming Words to Life!

To make the concept of Naming Words (Nouns) more interactive and meaningful, a fun-filled classroom activity "Pick and Check" was conducted. This engaging hands-on activity aimed to enhance students' understanding of nouns by encouraging active participation and practical application.

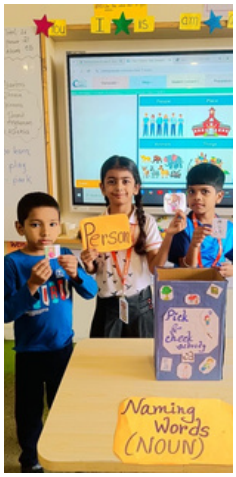

The highlight of the activity was the Mystery Box, filled with cards representing various people, places, animals, and things. Students were excited and curious as they took turns to randomly pick a card from the box and classify it under the correct category of nouns.

This hands-on experience allowed students to explore and differentiate between different types of naming words in a fun and memorable way.

This activity made learning enjoyable while offering a practical understanding of grammar concepts to the students.

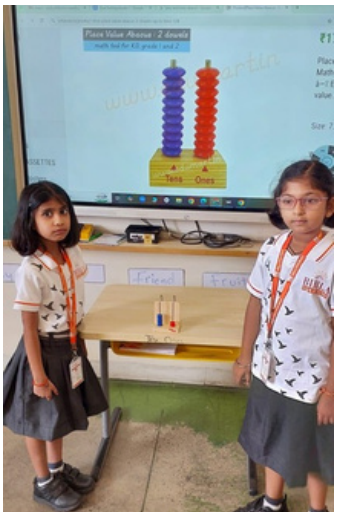

Mathematics- Tens & Ones Using Abacus

Learning Maths is fun when it's done through play and exploration! To help our Grade 1 students understand the concept of place value, an exciting activity using the abacus was conducted in the classroom. The main focus of this activity was to teach children how to read and form two digit numbers using tens and ones.

Children were fully engaged as they explored different numbers using the beads. This game encouraged quick thinking and a better understanding of place value.

Grade 1 – EVS Activities

Healthy Snack Making- Tiny Chefs, Tasty Bowls!

To encourage healthy eating and experiential learning, a Healthy Salad Making Activity was conducted for the Grade 1 students. Children brought neatly chopped fruits and vegetables from home, with the help and guidance of their teachers, the students enthusiastically took part in mixing the ingredients to prepare colourful and tasty salads.

The activity was a blend of fun and learning as children explored the textures, colours, and names of different fruits and vegetables. They learned how healthy food helps us grow strong and stay active. The most exciting part was when the children happily tasted the salads they had prepared with their own little hands.

Butterfly Garden – From Seeds to Smiles

As a part of environmental learning and hands on exploration, our Grade 1 students participated in a joyful Butterfly Garden Activity. With excitement in their eyes and curiosity in their hearts, the children stepped into the garden area and sowed seeds with their tiny hands. Guided by their teachers, they carefully placed the seeds into the soil, gently covered them and watered them with great care.

The activity helped students connect with nature and understand how plants grow. Teachers explained the importance of greenery and how planting trees and flowers can help bring butterflies, bees, and birds to our surroundings. Children were thrilled with the idea of watching their seeds grow into plants in the coming days. The experience was filled with smiles, muddy hands, and a growing love for nature.

Poem Recitation Competition

Objective: To encourage self-expression and creativity in young learners.

Learning Outcome: Students showcased team spirit and collaborative participation in a house-wise event.

GRADE 2- Dental Checkup

Have you ever wondered what questions buzz in the minds of young children, like "Have you ever visited a dentist?" or "Why do we get toothaches?" Our little ones carry a world of curiosity, especially when it comes to their teeth!

This year, BOMIS brought dental health education to life by inviting a qualified dentist to our Grade 2 classrooms. In this truly memorable session, students had the opportunity to engage directly with a professional, discovering the answers to their most curious queries about oral health. The dentist demonstrated safe, effective brushing techniques. Students have become confident little advocates for their oral health—the kind of insight only learning from a real dentist can offer. So the next time dental care comes up, feel free to ask these Grade 2 experts—they've learned from the very best!

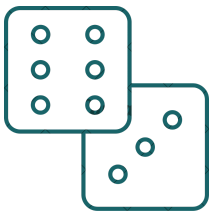

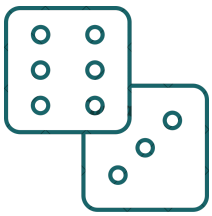

Grade 2: EVEN STEVES AND ODD TODDS

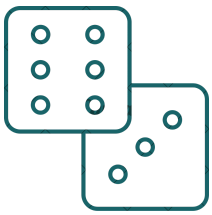

Recently, our Grade 2 students embarked on an exciting journey to explore even and odd numbers, the mathematical concept in real-world patterns, and meaningful experiences. Understanding even and odd numbers is not just about counting—it forms the foundation for number sense, arithmetic thinking.

Students used everyday objects—cubes and counters—to group numbers into pairs. If every object found a partner, the number would be even. If one was left unpaired, that number was odd. This tactile activity helped them experience the concept, not just memorize it.

Grade 2- Adventure in Traditional Clothing- Role Play/ Exploring Cultural Threads

Step into Culture: A Role-Play

In an engaging role-play activity, BOMIS explored the vibrant world of traditional and cultural costumes as part of their learning. The classroom was transformed into a colourful tapestry of various cultures, with students proudly showcasing their outfits from around the globe.

Dressed in colourful traditional attire, each child represented a different cultural or regional costume—from iconic Indian garments to global dress styles—and shared the stories about the significance of the costume, material, and the reason behind their selection.

Cultural Couture beautifully blends learning with lively performance, reminding us all that education is richer when it engages both heart and the mind.

Grade 2: "Wholesome Delights: Healthy Snack Making with Madley Salad!"

Grade 2 BOMIS students enthusiastically took part in the exciting “Healthy Snack Making- Medley Salad” event, seamlessly connected with the lesson, Food For Us.

This activity provided students with the opportunity to explore the world of healthy and unhealthy food choices, while also examining various food groups.

As budding chefs, they showcased their creativity by mixing and assembling ingredients to make their healthy salads, emphasizing essential kitchen skills and the value of making mindful food choices. The activity encouraged critical thinking about making healthier food decisions, reinforcing that snacks should mirror meals in variety and quality. With smiles all around, the children enjoyed rolling, stirring, and sharing their delicious, nutritious bites, proving that healthy eating can be both fun and tasty!

Grade 2: Plantation Drive on Van Mahotsav

As part of our efforts to provide a well-rounded education, we organized a Plantation Drive activity for the students of Grade 2 in the school on account of Vana Mahostav.

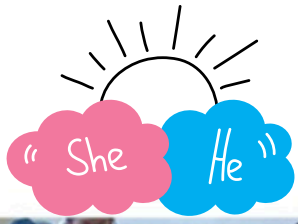

The plantation drive served as an educational platform, raising awareness about the importance of trees. Participants learnt about different types of trees, and this activity promoted environmental awareness which id essential for a healthier planet for future generations. Students who took part in the drive and planted in the garden were appreciated and rewarded with a star. During this drive, each class planted a plant, and every week the students were given the duty to check on the plant and take care of it.

Grade 2: Pronouns activity

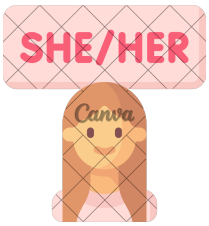

"Feed the Monkey" is an engaging and interactive activity designed for grade 2 students to learn about pronouns, specifically singular and plural forms. In this engaging activity, students work in groups to identify and segregate pronouns into singular and plural categories. They're given pronoun tags to read, discuss, and sort with the help of their partner. This hands-on approach enables students to understand the difference between singular pronouns. Develop teamwork and communication skills through group work and discussion.

Grade 2: Addition Carryover activity

At BOMIS, Grade 2 students had a fun-filled day learning about addition with carry forward through a hands-on activity. They grasped the concept of carry over, understanding that when the sum in the ones place exceeds two digits, it needs to be carried forward to the tens place to complete the operation and calculate the sum. This interactive approach helped them practically apply the concept, making learning an enjoyable experience.

Grade 2: Poem Recitation Competition

The Grade 2 students showcased their talent and confidence through a poem recitation activity, exploring themes such as nature, the value of water and time. With enthusiasm and creativity, they brought the poems to life.

The poem recitation activity was a resounding success, showcasing the students' talent, creativity, and understanding.

Birla Edutech Limited (BEL) Teachers' Training - Day 1

Objective: To equip teachers with innovative pedagogical strategies that enhance classroom teaching and learning.

Learning Outcome: Implement effective and innovative teaching methodologies in their classrooms.

Birla Edutech Limited (BEL) Teachers' Training - Day 2

Objective: To promote reflective teaching practices that align with the vision and values of BEL.

Teachers demonstrated improved classroom management and student motivation techniques.

Birla Edutech Limited (BEL) Teachers' Training

Objective: To strengthen teachers' ability to create student-centered, engaging, and inclusive learning environments.

Reflect on their teaching practices and adopt a growth mindset for continuous improvement.

Grade 3- EVS Activities

1) Activity- Nature Walk

Learning Outcome - Students were able to identify and describe different parts of a plant. They observed and recognized various plant structures in nature and understood the functions of each plant part.

2) Activity- Early Humans Role Play

Learning Outcome - Students were able to understand the lifestyle and challenges of early humans, learn about early human shelter, clothing, food and tools.

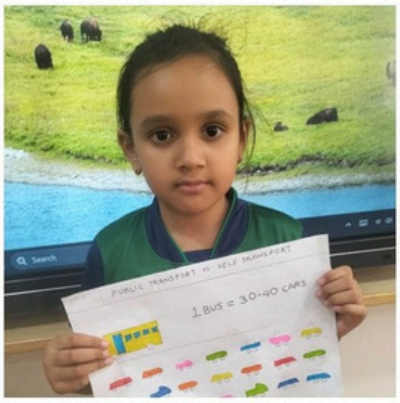

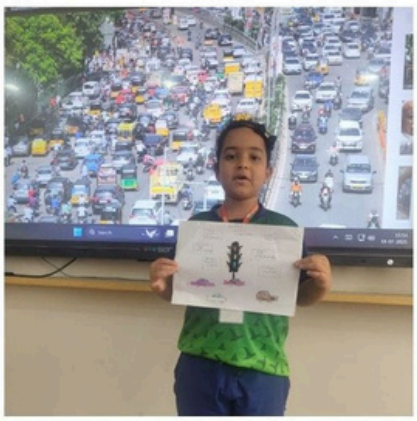

3) Activity: Class Presentation on how to reduce Traffic Congestion Learning Outcome - Students were able to Identify ways to reduce traffic congestion, explained benefits of reducing traffic congestion.

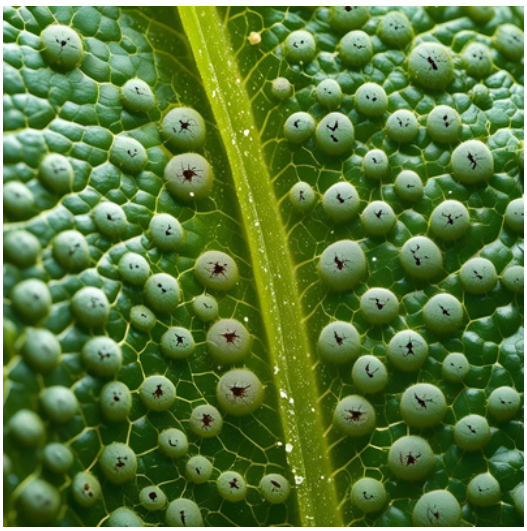

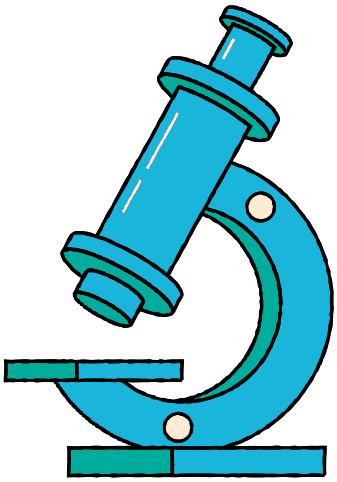

Grade 4- EVS Activities

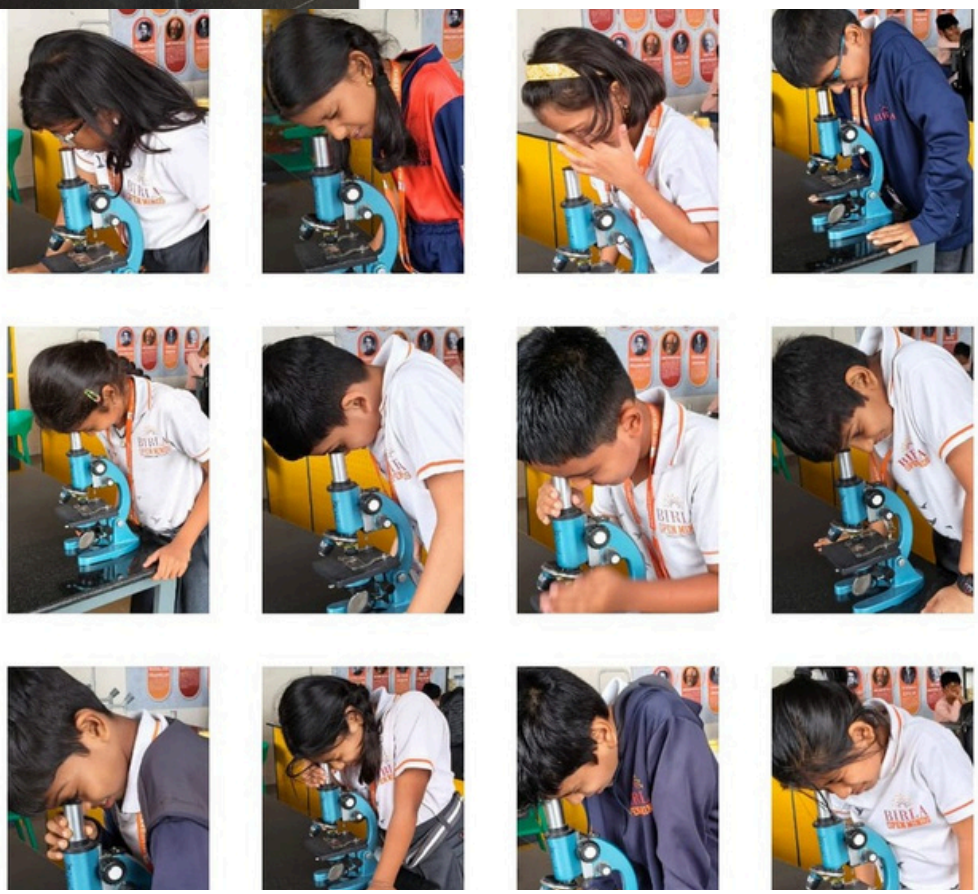

1) Topic: Presence of STOMATA on the leaf

Learning Outcome - Students were able to identify stomata on leaf surface, describe stomata's role in photosynthesis and understand the importance of stomata for plant survival.

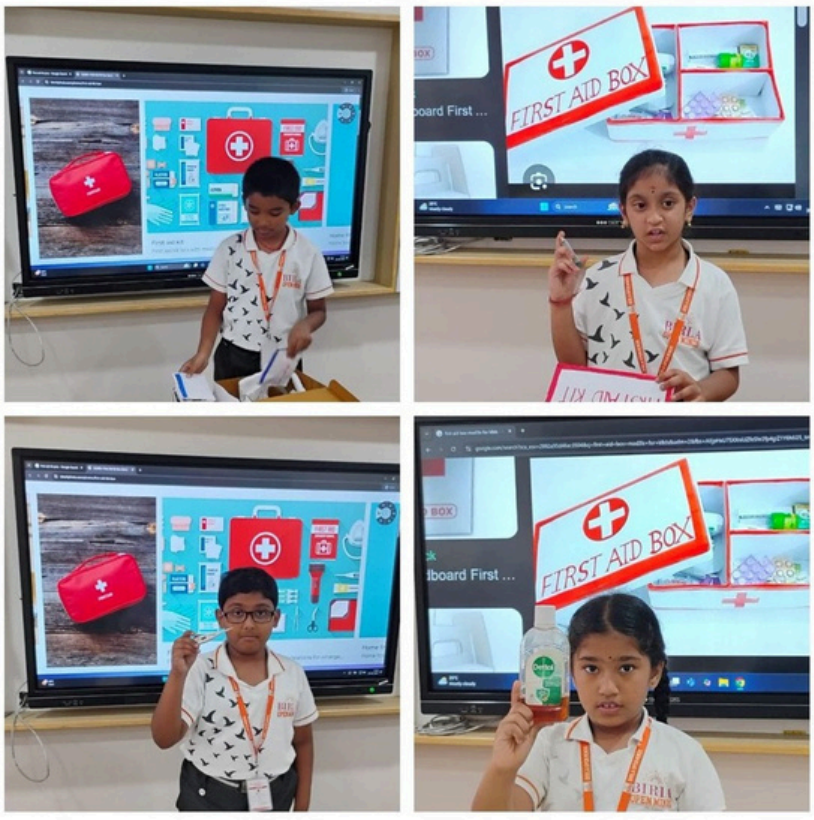

2. Topic: First Aid Kit

Learning Outcome - Students were able to Identify and explain the use of basic first aid kit items, demonstrate how to use first aid supplies and understand the importance of having a first aid kit.

3. Topic: Animal Adaptations - Camouflage

Learning Outcome: - Students will be able to Understand the concept of camouflage in animal adaptation, explain how camouflage helps animals survive in their environment and recognize examples of animals that use camouflage.

Maths Activity- Grade 4

Topic: Commutative Property of Multiplication

Learning Outcome: Students will be able to understand and apply the commutative property of multiplication by recognizing that changing the order of factors does not change the product.

Grade 5 Activities

1. Topic: Flipped Classroom on Communicable and Non communicable diseases

Learning Outcome - Students were able to understand the difference between Communicable and Non communicable diseases, identify examples of each type of diseases, recognize ways to prevent and manage diseases.

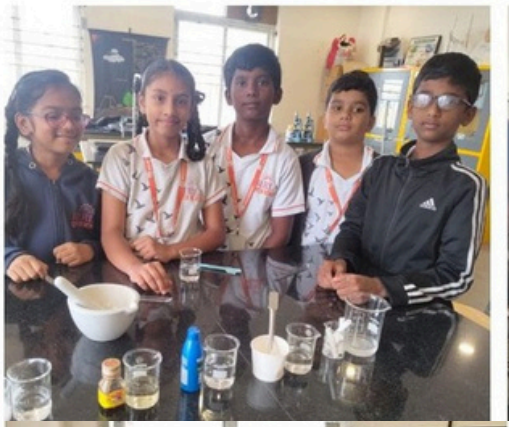

Science Activity- Grade 5

2. Experiment – Solubility of different liquids in water

Learning Outcome - Students will be able to Understand the concept of solubility and identify liquids that are soluble.

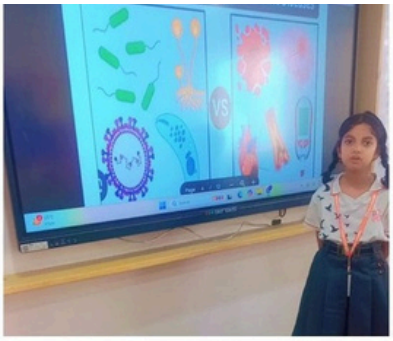

3. Grade 5-EVS Activity-: Wellness & Illness Tree

Introduction: Understanding about Communicable & Non-Communicable diseases

Learning Outcome: Students were able to classify diseases into communicable and non-communicable. They explained how lifestyle choices impact health and also developed awareness of diseases prevention and wellness strategies.

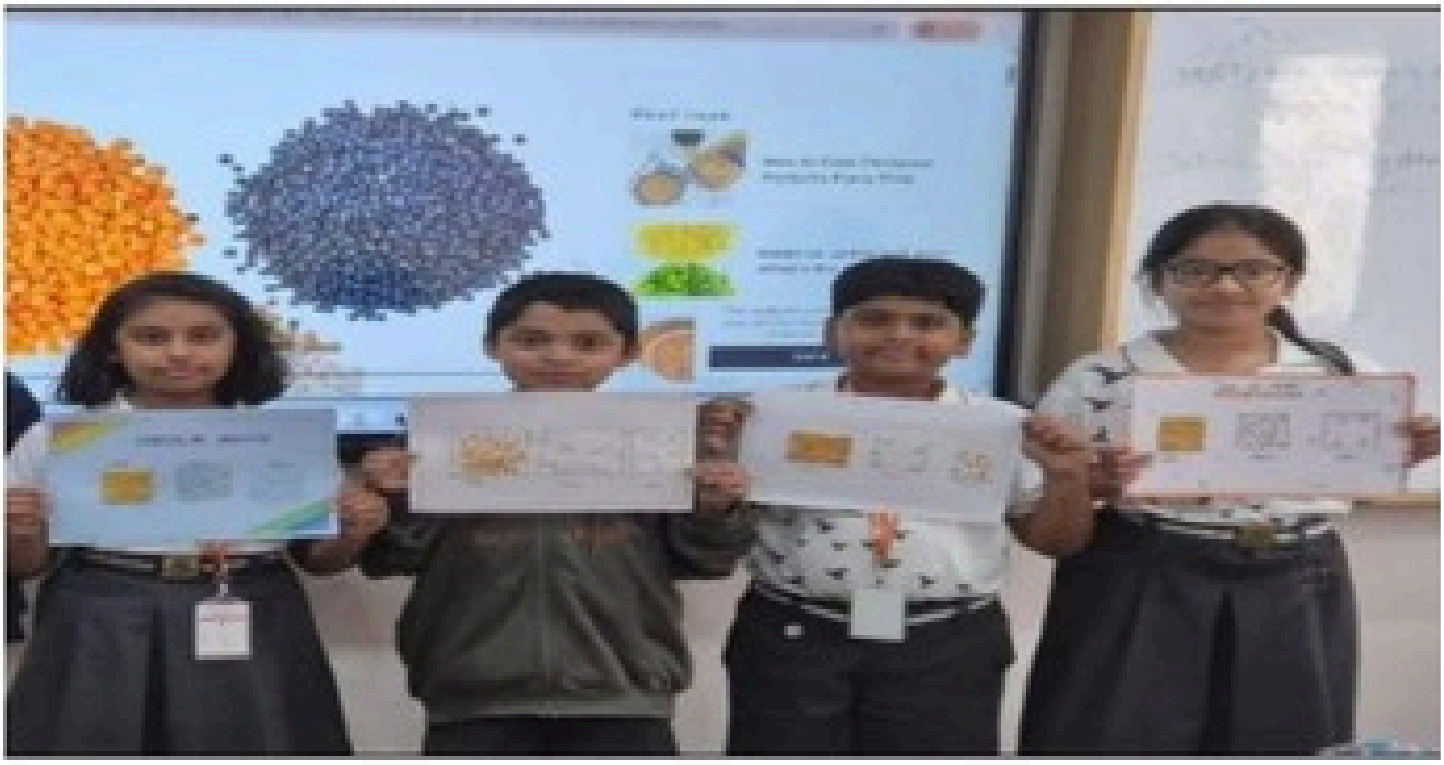

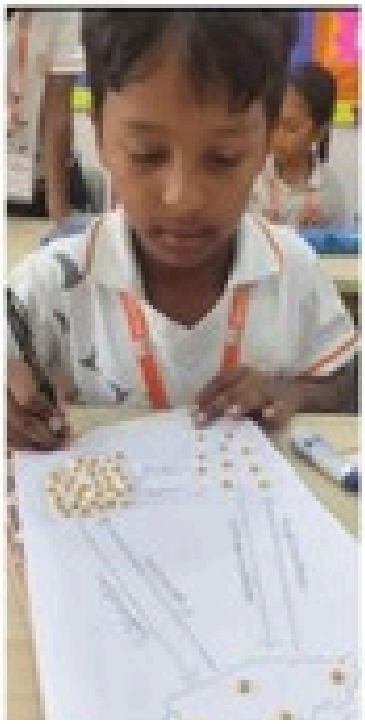

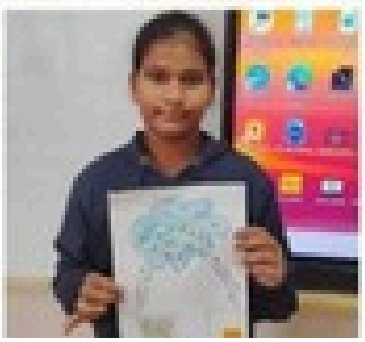

4. Grade 5- EVS Activity: Molecular Arrangement

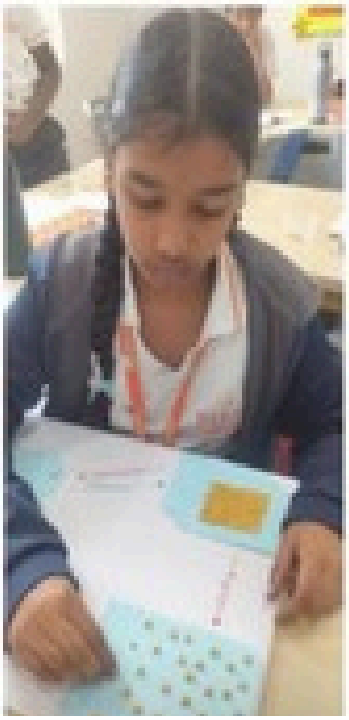

Learning Outcome: Students understood the states of matter (solid, liquid, gas) using Lentils as a model, identified and described particle arrangement in different states.

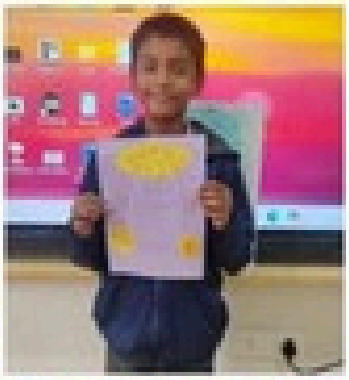

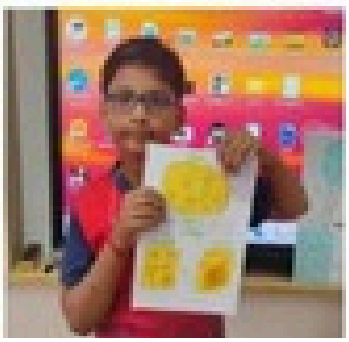

Grade 6- Science Activity
Experiment: Test for Nutrients

Learning Outcome: Students will be able to perform simple food tests to identify the presence of carbohydrates (starch, glucose), proteins, and fats, and record their observations accurately.

Grade 7: Students presenting 'Lungs Model'

Learning Outcome:
Students will be able to demonstrate the working of the human lungs using a model, explaining the process of inhalation and exhalation, and relate it to the mechanism of breathing in the human respiratory system.

Grade 8- Science Activity

Experiment: Zones of a Candle

Learning Outcome: Students will be able to identify, observe, and differentiate the three zonesU of a candle flame (outer, middle, and inner) and explain their characteristics in terms of colour, temperature, and combustion.

Meditation

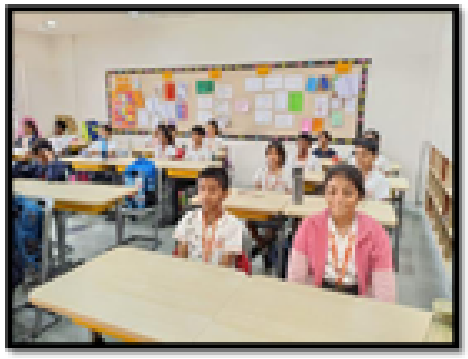

SOUL SCIENCE

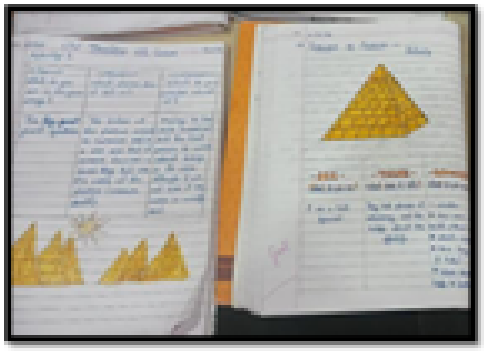

Objective: To encourage a positive attitude towards holistic health by connecting mind, body, and soul.

Learning Outcome: Students were able to practice basic meditation techniques to calm the mind and body.

Grade 6: See, Think, and Wonder Activity.

Grade 7 and 8 Meditation Activity

Objective: To help learners understand the importance of mindfulness in reducing stress, improving concentration, and fostering inner peace.

Learning Outcome: Recognize the benefits of meditation in enhancing focus, memory, and academic performance.

Hindi Activity

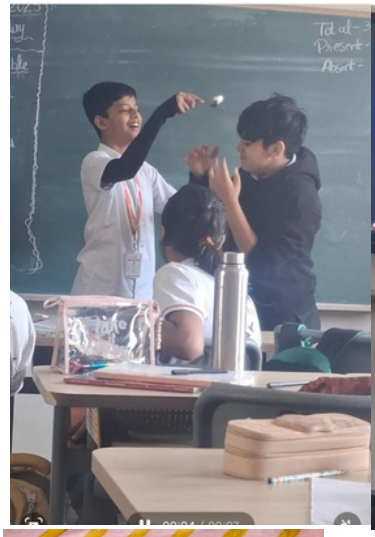

On Ganesh Chaturthi, Grade 4 and Grade 5 students made eco-friendly Ganesh statues using clay and paper. The activity promoted creativity, tradition, and environmental awareness.

Class 5 students enjoyed a Kathputli Making Activity and presented short puppet shows.

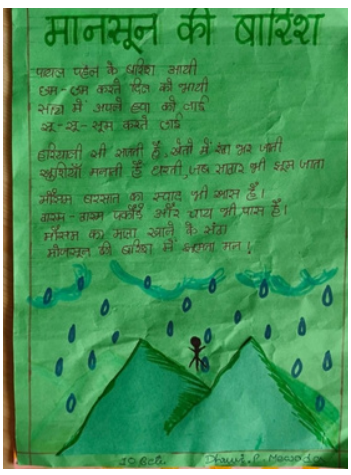

Class 7 students participated in a Muhavare Activity where they enacted idioms in real-life situations.

Class 10 – Poem Writing
Students of Class 10 showcased their creativity in a Poem Writing Activity on the theme of seasons. The activity enhanced their expression, vocabulary, and confidence.

Telugu Activity

Grade 7 – Learning Parts of Speech through Teamwork

Objective: To make grammar learning fun and interactive, our Grade 7 students participated in a Parts of Speech Team Activity.

Learning Outcome: In this activity, a student from one team gave a sentence to a member of the opposite team and asked them to identify a particular part of speech in that sentence. The responding student then wrote the answer on a slip of paper and pasted it on the board.

Grade 8 –Activity on “Vaakya” (Sentences)

Our Grade 8 students explored the topic “Vaaky” (Sentences) through an interactive team-based activity.

Learning Outcome: In this activity, a student from one team posed a question to a member of the opposite team. The responding student had to answer and then frame simple, compound, and complex sentences based on their response.

ICT Tech Challeng Competition from Grade 3 to 10

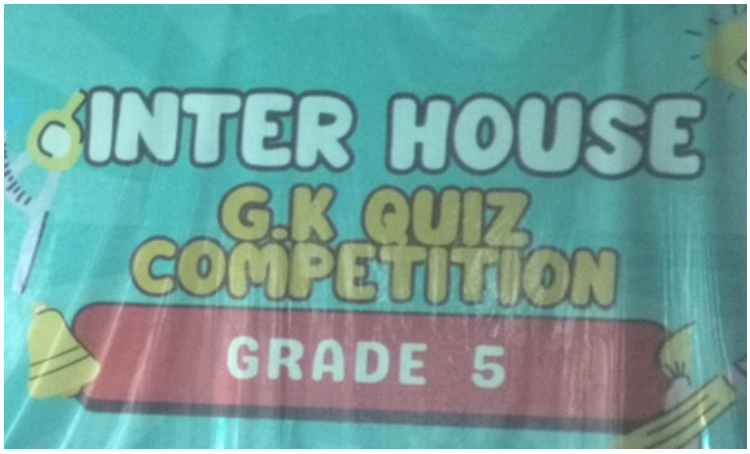

Birla Open Minds International School, Bandlaguda Jagir, celebrated creativity and innovation through the Tech Challenge 2025, a vibrant showcase of student's talent in the field of Information and Communication Technology. The event was conducted under the guidance of the ICT Department, in collaboration with the CCA team, on 28th and 29th July,2025 for grades 3-10.

The challenge provided a platform for students to express their ideas using digital tools and technologies. Participants created a wide variety of impressive projects, including comic strips, short movies, podcasts, multimedia presentations, 3D design, interactive animations using Scratch and Pivot animator.

Inter House GK Quiz

GK Inter-House Quiz Competition was organized for Grade 5th to 10th. All the four houses- Ambition, Discovery, Legacy and Spirit; showcased their knowledge talent spectacularly. The Principal, Ms. Nishi Rana congratulated all participants.

Inter House GK Quiz

The questions presented to the teams by the teachers were exciting, eliciting enthusiastic applause from the audience, when answered correctly. Overall, the electrifying quiz contest provided a valuable learning experience for all students.

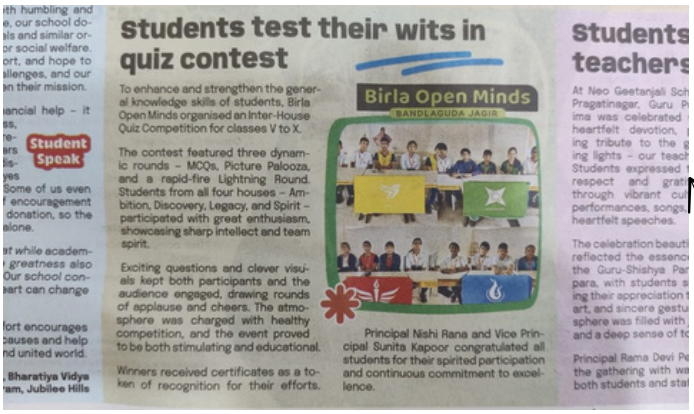

GK Quiz Competition -Winners

Our Principal, Ms. Nishi Rana, and Vice Principal, Ms. Sunita Kapoor, congratulated the students for their outstanding efforts and consistent pursuit of excellence.

students test their wits in quiz contest

To enhance and strengthen the general knowledge skills of students, Birla Open Minds organised an Inter-House Quiz Competition for classes V to X.

The contest featured three dynamic rounds – MCQs, Picture Palooza, and a rapid-fire Lightning Round. Students from all four houses – Ambition, Discovery, Legacy, and Spirit – participated with great enthusiasm, showcasing sharp intellect and team spirit.

Exciting questions and clever visuals kept both participants and the audience engaged, drawing rounds of applause and cheers. The atmosphere was charged with healthy competition, and the event proved to be both stimulating and educational.

Winners received certificates as a token of recognition for their efforts.

Birla Open Minds
BANDLAGUDA JAGIR

Principal Nishi Rana and Vice Principal Sunita Kapoor congratulated all students for their spirited participation and continuous commitment to excellence.

Grade 9 & 10- Student Council Election Campaign

As Grade 5 to Grade 10 students are quickly gearing up for the upcoming elections, they presented their voting manifestoes on 3rd July 2025. The presentation of manifestoes was deeply admired by the Principal, Ms Nishi Rana and Vice Principal Ms Sunita Kapoor, who encouraged and motivated students to become a pillar of strong leadership.

Student Council Election Campaign

Our promising students meticulously expressed their visions and ideas. Their dedication was witnessed as they confidently asserted to foster inclusivity, prioritize students' welfare and provide them with academic support along with fun and engagement.

Student Council
Election Campaign

For the Students, By the Students!": Manifesto Presentation!!

Participating candidates drew attention on "why to vote for them" and told fellow students about their leadership skills and how they can bring a positive transformation,

Student Council E-Voting

"Every vote counts! Every voice matters!"
The much-awaited Student Elections at Birla Open Minds International School finally came alive with excitement as polling kicked off on July 15.
The first votes were proudly cast by our Honourable Principal Ms. Nishi Rana, Vice Principal Ms. Sunita Kapoor, and Headmistress Ms. Narmada, followed by our dedicated HoDs, teachers and enthusiastic students.

Investiture Ceremony

One of the most prestigious events of the school unfolded with grandeur and pride as the newly elected Student Council Members took centre stage during the Investiture Ceremony.

Our Respected Principal Ms. Nishi Rana addressing newly elected students council at the Investiture Ceremony.

Welcome Dance by our talented students during Investiture Ceremony.

Elected Members of the Students Council

“Our Principal, Ms. Nishi Rana, administered the Oath of Office, instilling in the students a deep sense of responsibility and commitment.”

Head Boy
&
Head Girl

The ceremony concluded with heartfelt Vote of Thanks by the Head Boy and Head Girl, followed by a joyful cake-cutting celebration. Congratulations to all the council members!

World Chess Day

Agastya Ram Guda from Grade 6 Gamma secured 1st Position in Telangana State Ranking Chess Tournament.

On 20th July, our school proudly celebrated International Chess Day with an engaging twist — we invited parents to join in the fun!

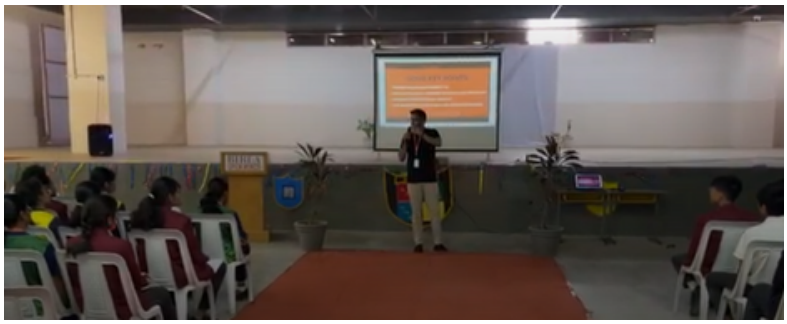

Grade 10
Career Guidance Session

To support our Grade 10 students in making informed subject choices for Grade XI, Birla Open Minds, Bandlaguda Jagir hosted an insightful Career Guidance Session in collaboration with Gradvine.

Led by Mr. Sreekar Sannapareddy, Co-founder of Gradvine, the session addressed key questions students and parents face during this important transition. An exclusive session for parents also fostered valuable discussion on supporting their child's academic journey.

With the guidance of our Principal Ms. Nishi Rana, Vice Principal Ms. Sunita Kapoor, and the HODs, students were encouraged to reflect on their strengths, ask questions, and gain clarity on future goals.

Reader’s Deck-ELA Activity from Grade 3 to Grade 10

Winners of Literary Week — “Reader’s Deck: Lit Labyrinth” — Character Parade, Mono Acting, Dice Tales and My Dream Book Cover

International Yoga Day Celebration on 21st June

The school celebrated International Yoga Day with enthusiastic participation from students across all grades, along with teachers and parents. The event highlighted the importance of yoga as a means of achieving physical well-being, mental clarity, and inner balance. A special highlight of the day was the session conducted by a trainer from the Isha Foundation, who guided participants through breathing exercises, asanas, and meditation practices.

International Yoga Day Celebration on 21st June

Students showcased their learning through synchronized demonstrations, creating a vibrant and inspiring atmosphere. The celebration served as a reminder of the timeless relevance of yoga in nurturing holistic growth and wellness.

TEACHING IS A WORK OF HEART

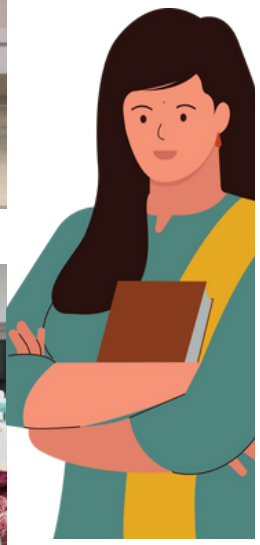

Teachers' Symposium 2025

BOMIS Bandlaguda successfully hosted the Teachers' Symposium from 10th to 13th June 2025, a two-day event that brought together teachers to exchange ideas and reflect on current trends in education. Teachers collaborated in groups to research their assigned topics, engage in discussions, and present their insights.

Teachers' Symposium 2025

The symposium provided an enriching platform for educators to critically analyze developments in education, collaborate with peers, and share informed perspectives. Each team delivered a 20-minute presentation using innovative formats such as storytelling, role play, gamification, experiential learning, and live demonstrations.
