November & December, 2025

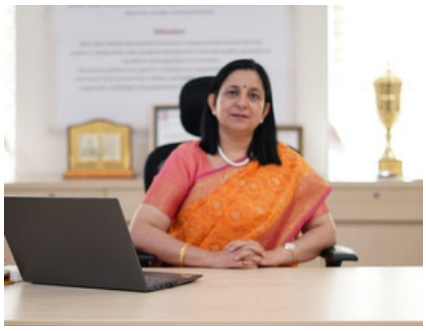

From the Principal's Desk

A Season of Inspiration and Excellence

Dear Parents and Students,

As we draw the curtains on an eventful November and December, I am filled with immense pride reflecting on the journey we've shared. These past two months have been a whirlwind of academic focus, athletic grit, and truly once-in-a-lifetime experiences that have enriched our school community.

A Presidential Honor: A Visit to Rashtrapati Bhavan

Undoubtedly, the crowning jewel of this term was the extraordinary opportunity for our Grade 6 and 7 students to visit Rashtrapati Bhavan. Meeting Hon'ble President Smt. Droupadi Murmu was a moment of profound inspiration. To stand in the presence of our nation's leadership in such a historic setting is an experience our students will carry with them forever. It served as a powerful reminder that with dedication and character, no dream is too big.

Celebrating the Joy of Childhood

November brought with it the laughter and vibrancy of Children's Day. We took a break from the standard routine to celebrate the unique spark within every student. Seeing the campus filled with smiles, games and performances was a beautiful reminder of why we do and what we do—to nurture the joy and potential of every child.

Grit on the Field and Focus in the Classroom

Our students have shown incredible versatility this season. While our Grade 10 students have shown commendable discipline as they began their Pre-Board Examinations, our athletes were busy proving their mettle on the field.

A massive shout-out to our sports stars who traveled to Warangal for the Inter-School Birla South Zone Sports Meet. The dedication they showed during their training and the sportsmanship they displayed at the meet have made the entire school proud. Whether in the examination hall or on the track, the spirit of giving their best has been our common theme.

Creativity and Festive Cheer: Looking Toward the Future

As the year wound down, the energy shifted toward creativity and celebration. Rehearsals for our Annual Day for Grade 3 to 5 and 6 to 9 were in full swing, with students transforming into performers, artists, and leaders. This atmosphere of preparation was beautifully complemented by our Christmas Day celebrations, where the spirit of giving and togetherness filled the air.

As we end this year and look toward 2026, I want to thank you—our parents and staff—for your unwavering support. Together, we have created a space where our students can meet Presidents, win trophies, and grow into compassionate individuals.

Wishing you all Happy New Year.

Warmly,

Ms. Nishi Rana

Principal

BOMIS, Bandlaguda Jagir

From the Vice Principal's Desk

Nurturing Minds, Shaping Futures

Education, in my view, is a process that unfolds gradually, shaping not only the intellect but also the inner strength of a child. It is not limited to completing lessons or achieving ranks; it is reflected in the way students think, respond and grow into responsible individuals. The true impact of education is often seen in quiet moments rather than loud achievements.

Each day in school offers countless learning experiences. A student learning to accept a different opinion, another developing confidence through participation, a teacher patiently guiding a child who struggles—these everyday instances define the real spirit of education. They remind us that learning is not confined to textbooks; it is deeply connected to values, behaviour, and attitude.

It is rightly said, "Education should ignite curiosity and nurture understanding, not merely accumulate information". In a world where knowledge is easily available, wisdom and discernment must be consciously developed. Our responsibility as educators is to help students think independently, act ethically and remain grounded while aiming high.

Academic excellence is important, but it gains true meaning only when accompanied by empathy, discipline, perseverance, and respect for others. The purpose of education is not just to create successful individuals, but responsible human beings. These qualities prepare children for life beyond examinations and classrooms.

Every child entrusted to us carries unique potential. When teachers, parents, and the school work together with shared purpose, children feel secure, motivated and inspired to give their best. A nurturing environment encourages them to ask questions, learn from mistakes and grow with confidence.

I sincerely appreciate the dedication of our teachers who guide with patience and commitment, the parents who support and trust the school's vision, and the students whose curiosity and sincerity make each day meaningful. Their collective efforts shape the vibrant learning culture of our school.

As we move forward, let us continue to nurture young minds with care and purpose, shaping futures rooted in values, knowledge and compassion—because education is not merely preparation for life, it is life itself.

With warm regards,
Ms. Sunita Kapoor
Vice Principal

From the Headmistress's Desk

Dear Parents,

Warm wishes to you and your family.

Happy New Year and Happy Sankranti!

Let us continue together into another beautiful year filled with growth, learning and success.

The Annual Day celebration was a grand success, filled with joy, enthusiasm and vibrant performances by our students. It was truly heartening to witness the confidence with which the children took to the stage, showcasing their talents through dance, music and drama. Each performance reflected their dedication, teamwork and courage to express themselves before an audience. Such enthusiastic participation plays a vital role in building self-confidence and strengthening communication skills among students. Events like the Annual Day provide children with valuable opportunities to overcome stage fear, discover their hidden talents and experience a strong sense of achievement.

Our Annual Day also served as a meaningful learning experience. Each Disney character portrayed during the performances represented unique character traits and important life values. These stories open doors for reflection and discussion at home.

We encourage parents to read stories with their children and engage them in conversations about the unseen character traits, values and lessons behind the stories. Spending quality time exploring books together nurtures a lifelong love for reading.

With the continued support and encouragement of all stakeholders, we look forward to creating many more enriching experiences. Together, let us continue to inspire our children to learn, express themselves and grow in every possible way.

Regards,

Mrs. Narmada

Headmistress

Pre-Primary Activities

Building Cozy Homes with Care

Our **K2** children enjoyed a meaningful nest-making activity where they explored how birds build homes for their young ones. Using natural and craft materials, the children carefully created cozy nests, learning the importance of making safe and comfortable homes for little ones.

This hands-on activity encouraged creativity, strengthened fine motor skills and helped children develop kindness and care for living things. The children were fully engaged and took pride in their beautiful creations while learning through play.

Field Trip to the Flower Meadow

Our young learners enjoyed a delightful field trip to a beautiful flower meadow, filled with rows of blooming white and yellow flowers. The visit gave children a wonderful opportunity to connect with nature and experience learning beyond the classroom.The trip encouraged curiosity, environmental awareness, and sensory learning as the children walked through the fields and admired the natural surroundings.

Smiles, laughter, and wonder filled the day, making the outing both educational and joyful. Such experiences help children develop appreciation for nature while creating lasting memories with their classmates.

Cotton Swab Printing Activity

Our Nursery students enjoyed a fun and creative art activity using cotton swabs for printing. After making patterns with paint, they stuck the clothes cutouts onto the artwork, designing their own outfits. This activity helped develop fine motor skills, creativity and hand-eye coordination while encouraging self-expression and imaginative play.

Milestone Celebration: 100 Wonderful Days of Nursery!

With immense joy and pride, BOMIS Bandlaguda celebrated the successful completion of 100 wonderful days of Nursery, a milestone designed to encourage and motivate our little stars. The theme for this special occasion was “Superheroes and Disney Magic”, capturing the spirit of learning, laughter and growth experienced over the past months.

The magical celebration began with a warm welcome to parents, who added to the excitement by coming dressed as their favourite superheroes and Disney characters. To make the day memorable, a series of fun-filled and engaging activities were organised, including hula hoop, ramp walk, art & craft, paper dance, certificate distribution, cake cutting and Zumba.

The day was filled with smiles, joy, and unforgettable moments. Parents shared heartfelt testimonials, and a special video showcasing beautiful memories of our tiny tots was played on the projector.

The celebration concluded with the announcement of Best Dressed Children:

1st Prize: Arjun
2nd Prize: Jessie
3rd Prize: Adiraa

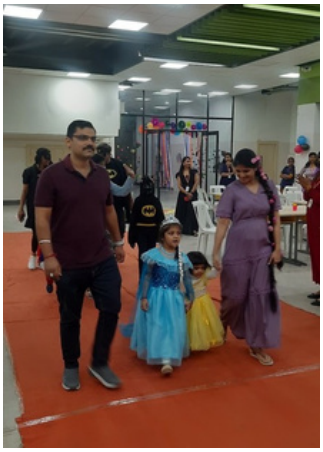

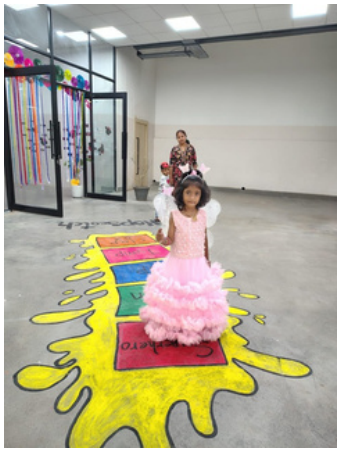

100 days of Nursery was truly a celebration of achievements, creativity and the magical journey of our young learners! ✨🎉

“Feeding the Birds” activity

The little ones were excited to prepare bird feeders using grains and seeds. They eagerly placed them outdoors, waiting to see the birds come and enjoy the treat.
Through this activity, children learned about the importance of caring for animals and the role birds play in our environment. It also encouraged kindness, responsibility and awareness about nature.

Grade 1 Activities

Describing words Activity

The students participated in a fun and interactive activity on Describing Words. Each child brought picture cards and matched them with suitable describing words like hot, sweet, bright and colourful. They confidently presented their cards in front of the class, explaining why each describing word was appropriate. This hands-on activity helped them understand adjectives in a simple and engaging way. Students enjoyed learning while showcasing their creativity.

Measurement-Heavy Activity

The students took part in an interactive activity to understand the concept of heavy and light. They brought different classroom objects and compared their weights by holding and observing them. Each pair confidently showcased one heavy item and one light item in front of the class. This hands-on experience helped them understand the difference in a fun and practical way. The activity encouraged participation, observation and clear communication. Students enjoyed exploring weights through real-life objects.

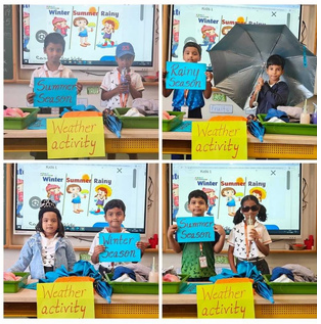

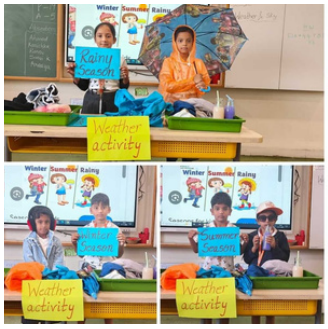

Weather Activity

Grade 1 Students participated in an exciting Weather Activity where they explored different seasons through real-life objects. They displayed items related to the summer season, such as caps, cool drinks, and light clothes, and explained how these things help us stay comfortable. The activity helped them understand seasonal changes and suitable clothing in a simple and interactive way. Students confidently presented their materials and shared their observations with the class. It was a fun learning experience that built their knowledge and communication skills.

Clean India, Green India Activity by Grade 1

As part of the Swachh Bharat Abhiyan, our students proudly led the “Clean India” campaign with great enthusiasm.

The Poor Woodcutter Story- Enactment Activity

Students actively participated by enacting different characters and learned that telling the truth is always rewarded. The activity helped them recognize right and wrong behavior in a fun and meaningful way. Students also improved their confidence, speaking skills and teamwork while enjoying the role play.

Grade 1 – Time-Themed Activity

Students enthusiastically participated in a Time-themed activity, where they learned to identify an analog clock and its important parts, such as the hour hand and minute hand. Students demonstrated their understanding by showing different times on the clock and writing the correct time in analog form. Through this hands-on activity, students developed a basic understanding of hours and minutes. The activity also helped enhance their observation skills and made learning about time fun, interactive and meaningful.

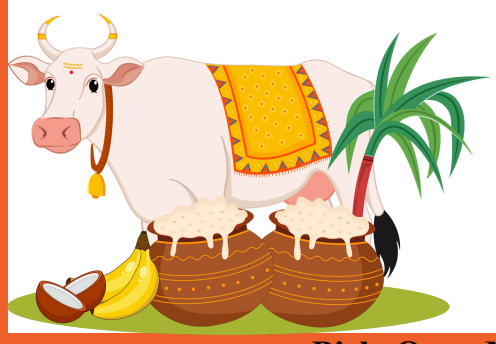

Festivals are Fun- Traditional Day Activity

The students participated in Traditional Day celebration where they wore traditional attire of their chosen states and brought related food items. They confidently expressed themselves about the state they represented. The activity helped develop cultural awareness and confidence.

Christmas Celebration

Students joyfully participated in the Secret Santa game and learned the values of sharing, kindness and caring for others. The special assembly conducted by Grade 1 and 2 helped children build confidence and develop stage presence. By making Christmas greeting cards and displaying them in the classroom, students enhanced their creativity and expressed festive feelings.

BOMIS TV

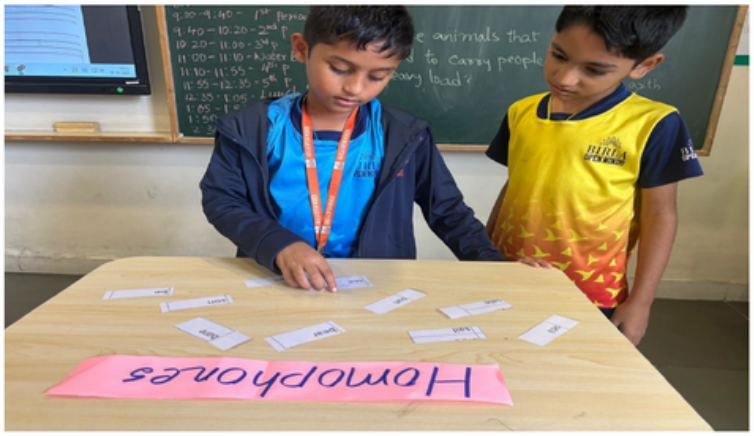

Students of Grade 1 participated in the BOMIS TV weather report activity. They confidently spoke about the weather of different states in a simple way. Children showed the clothes we wear according to the weather conditions of each state. Children enjoyed being the weather reporter and actively took part in the activity with great enthusiasm. Through this activity, students learned about different weather types, seasonal and suitable dressing. The activity helped to improve their speaking skills, confidence and general awareness in a fun and engaging manner.

Grade 2 Activities

ELA- Hear It Right- Homophones Activity

Students took part in an activity on homophones- words that sound same but have different meanings and spellings. They were given a set of words to observe and match correctly. This exercise helped students improve vocabulary and spelling and also sharpened their contextual and analytical thinking. By identifying and using homophones in sentences, learners practiced distinguishing words that sound alike but differ in meaning. The activity was enjoyable and boosted students' confidence in using language accurately.

Grade 2- Mathematics

Climb with Numbers! Snake and Ladder-Math-a-Ron

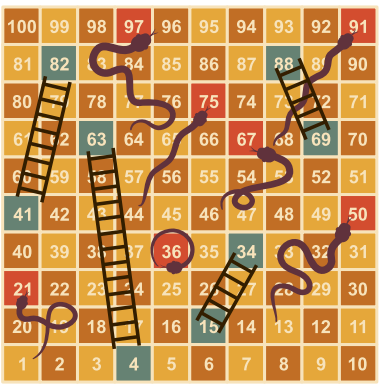

In Grade 2, our young learners enjoyed an exciting mental math activity focused on addition, subtraction and multiplication. The learning goal was for students to mentally calculate basic arithmetic problems accurately and efficiently without using paper.

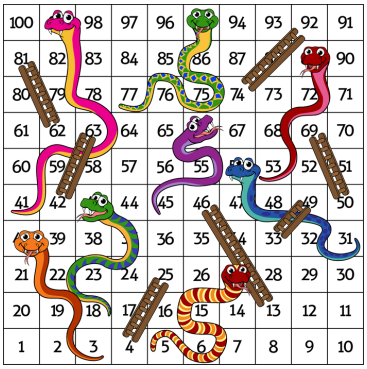

Students worked in small groups and rolled dice to generate numbers. They then used these numbers to complete a fun puzzle, applying their mental math skills. It was wonderful to see them think quickly, share ideas and work together!

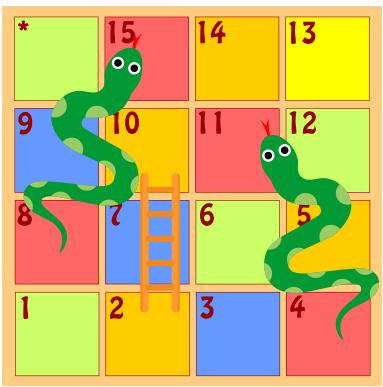

This activity helped students to strengthen collaboration, communication skills, practice turn-taking and problem-solving.

Grade 2-EVS
Shelter Stories

Our Grade 2 students enthusiastically participated in a lively science activity on Animal Shelters, learning about the special places where animals live and stay safe. The learning objective was to help students identify different types of animal shelters and understand how these shelters support animals in surviving and protecting themselves in their natural environments.

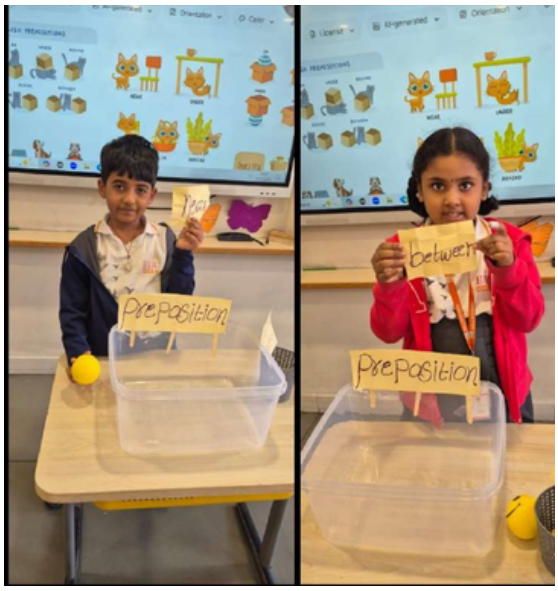

This interactive activity helped students sharpen their classification and reasoning skills, while also improving their observation abilities and attention to detail. The hands-on experience made learning meaningful, enjoyable and engaging for young learners.

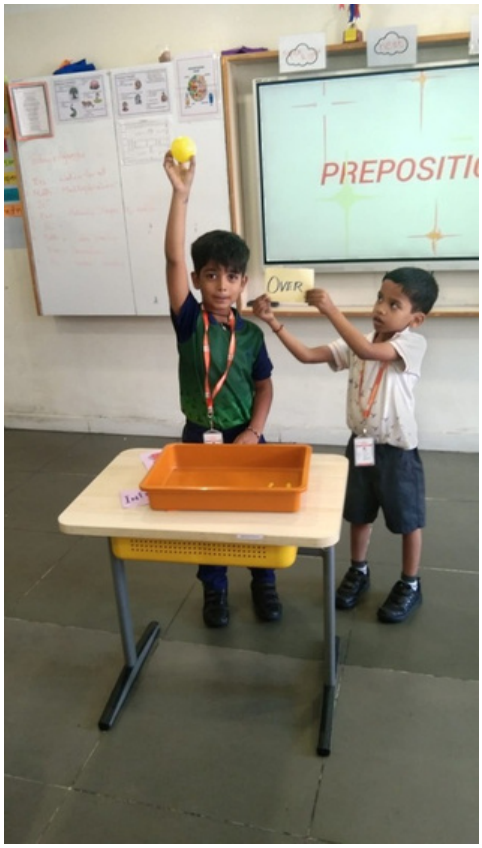

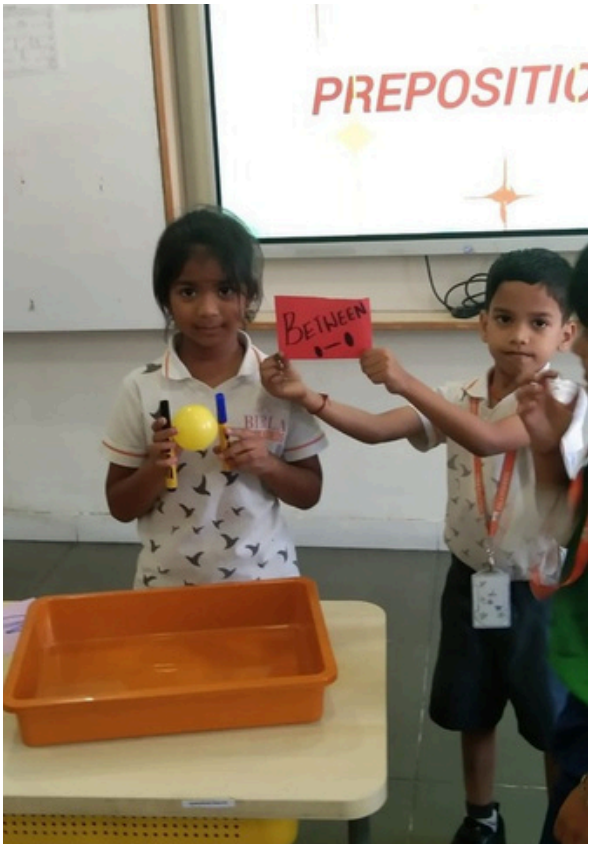

Position Power: Prepositions

In Grade 2, our young learners had a wonderful time exploring prepositions. Students got hands-on practice using pictures and classroom objects to make sentences. This activity supported children in knowing how prepositions show position and direction.

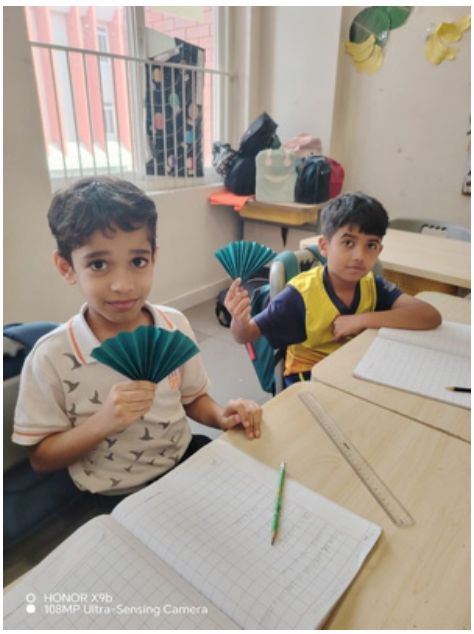

Feel the Breeze: Air in Action

Our Grade 2 learners had an exciting science lesson all about air , the invisible substance that surrounds us and fills every space on Earth! Even though we can't see air, we know it's there because we feel it

For this discovering, students used paper fans and made paper rockets to explore air in action. They noticed how air moves when they wave the fans, and they watched their rocket soar when they blew through a straw — showing that air can push and make things move!

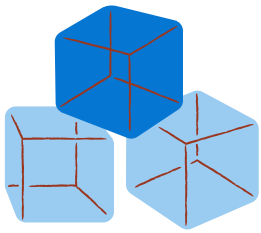

Stages of water -The Amazing Journey of Water!

Our Grade 2 scientists had a wonderful hands-on science lesson discovering the three stages of water — solid, liquid and gas. Water is an amazing substance that can change from ice (solid) to water (liquid) and even into water vapor (gas) when it heats up.

Students got to touch and feel each stage of water: They held ice cubes and felt how cold and hard they are, watched the ice melt into liquid water in their hands, they also learned about steam (water vapor) water that we can't see but know is there when it's warm and rises into the air as a gas.

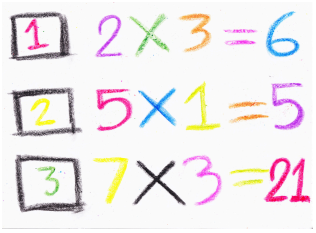

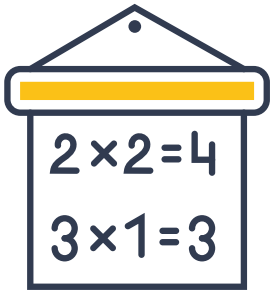

Grouping activities- Multiply with Clay and Friends!

Our Grade 2 learners had a hands-on math activity to explore the idea of grouping in multiplication ,a key concept that helps make multiplication easier to understand. In this lesson, students learned that multiplication is like putting things into equal groups and then quickly finding the total. And they worked with classmates in human groupings too, forming equal sets of students — just like the clay pieces — to represent multiplication visually and physically. This helped them see and feel what "groups of" really means. This engaging activity helped children: Understand multiplication as equal groups and work together, share ideas, and have fun with learning.

Grade 3 Art-Based Maths Activity – Sohrai Art

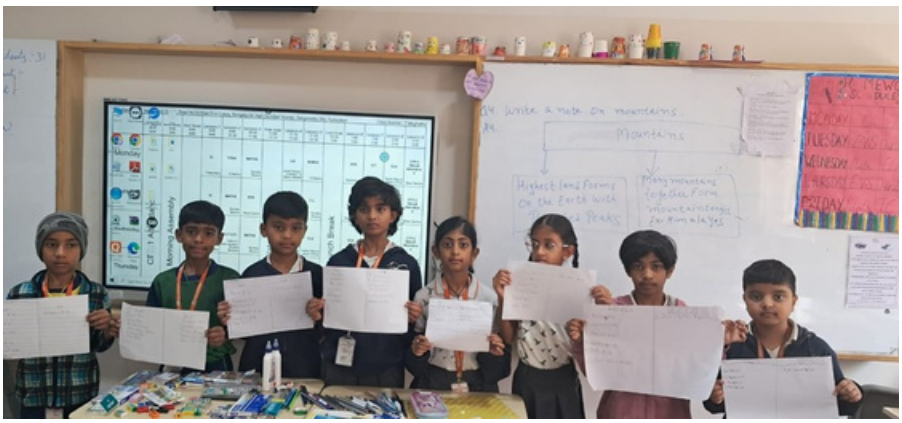

Our Grade 3 students explored the beauty of Sohrai Art through an engaging art-based Maths activity. By creating traditional patterns and motifs, learners strengthened their understanding of shapes, symmetry, lines and patterns; while also appreciating India's rich folk art heritage.
A perfect blend of creativity + critical thinking + culture!

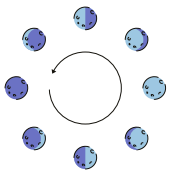

Grade 3-EVS Activity – Phases of Moon

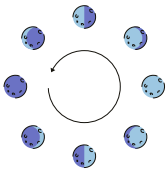

Objective: Students identifed and named the different phases of the Moon (New Moon, Crescent Moon, Full Moon and Gibbous Moon).

Learning Outcome: Students were able to identify and describe the different phases of the Moon and their sequence. They also observed and recorded the changes in the Moon's appearance over a period of time.

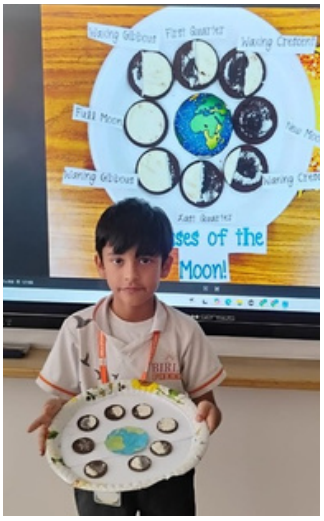

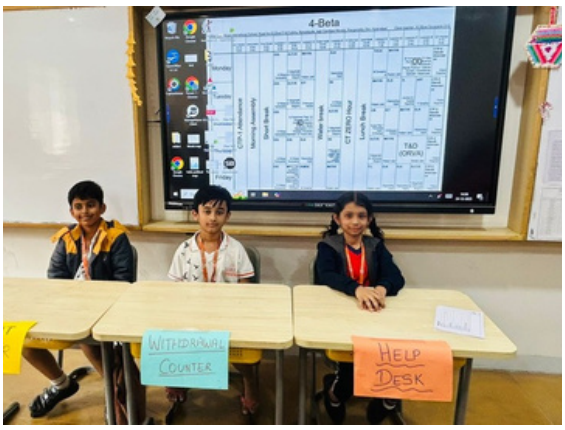

Grade 4- Financial Literacy Activity

SDG 4 – Quality Education

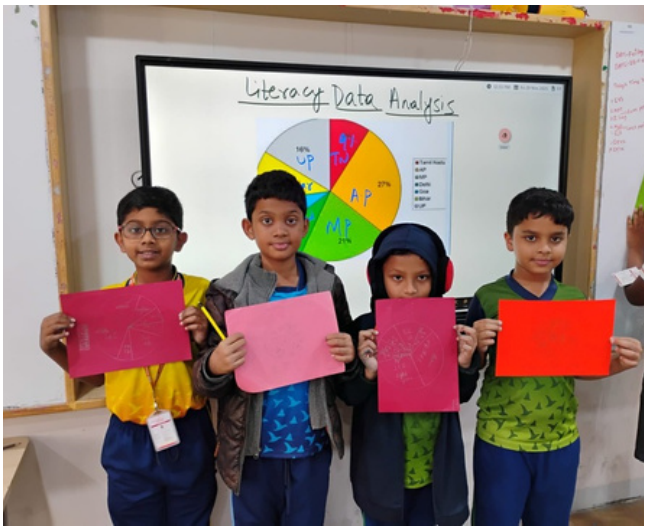

Our students engaged in an insightful activity where they analyzed and interpreted literacy data to deepen their understanding of Quality Education, one of the key Sustainable Development Goals.

Grade 5- Maths Activity- – Reuse, Recycle & Resell

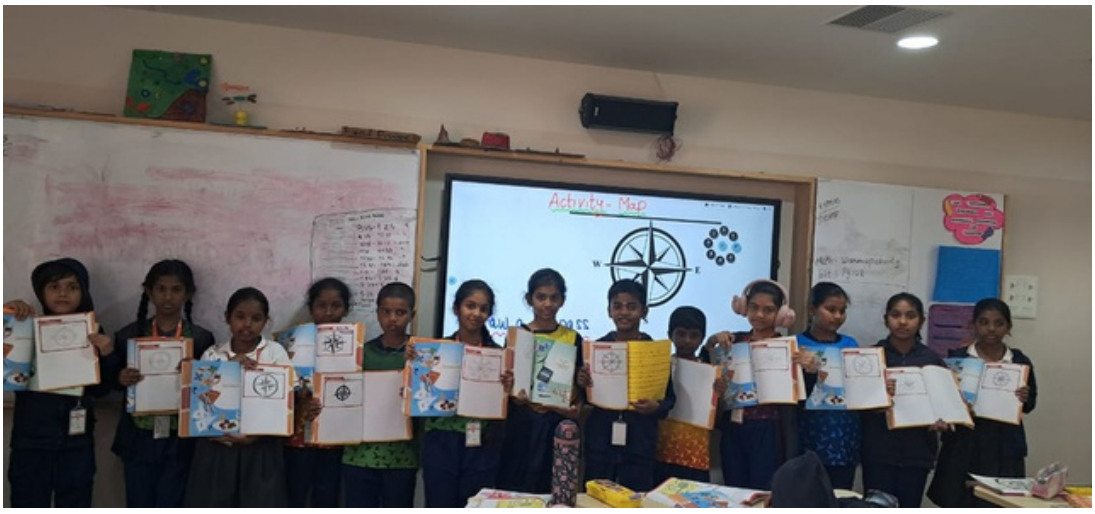

Our students took learning beyond textbooks through a meaningful Maths activity on Reuse, Recycle & Resell. Using everyday materials, students calculated cost price, selling price, profit, and savings, while understanding the value of sustainability and smart financial choices.

As part of the **Mapping** concept in Mathematics, **Grade 5** students participated in a hands-on activity titled **"Making Your Own Compass."** The activity helped students understand directions and navigation in a fun and practical way.

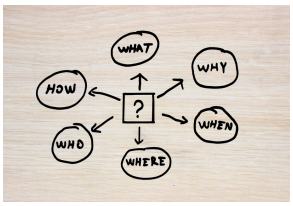

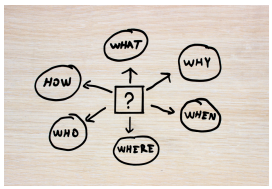

Grade 3- ELA Activity

Activity Objective: To help students understand how to frame questions correctly using who, what, where, when, why and how.

Learning Outcome: The hands-on task improved fine motor skills and focus on working with charts that made learning engaging and enjoyable. It also built students' confidence in speaking and writing.

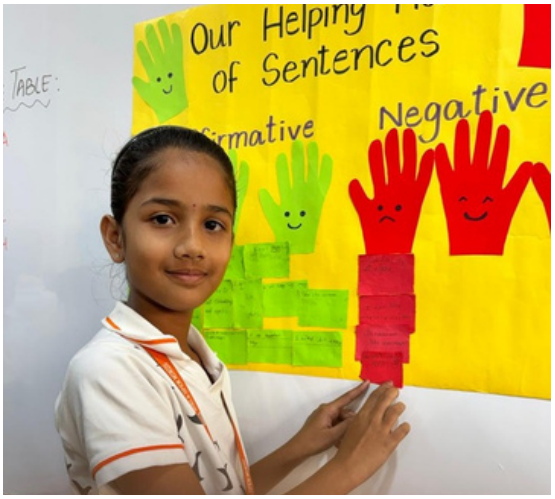

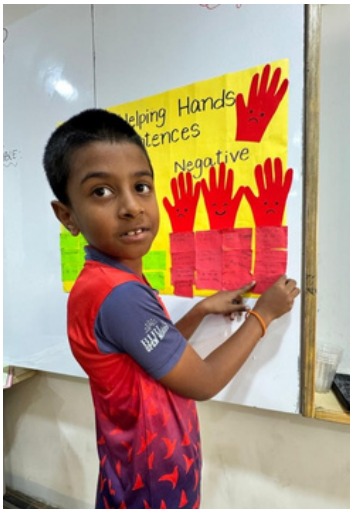

Affirmative and Negative Sentences

In this activity, students learn to identify and form affirmative and negative sentences in a fun and interactive way. Students read simple sentences and decide whether they are saying yes (affirmative) or no (negative).

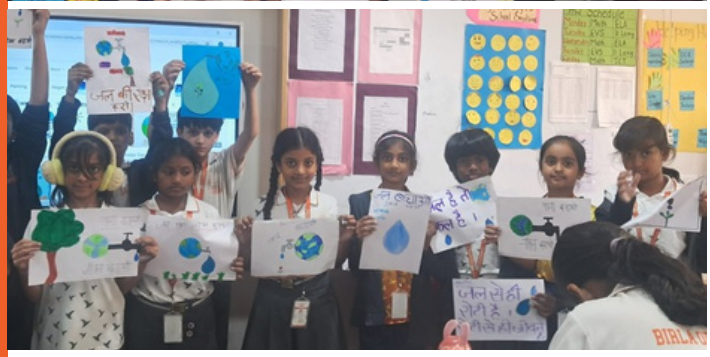

Grade 3 & 4 Hindi Activity

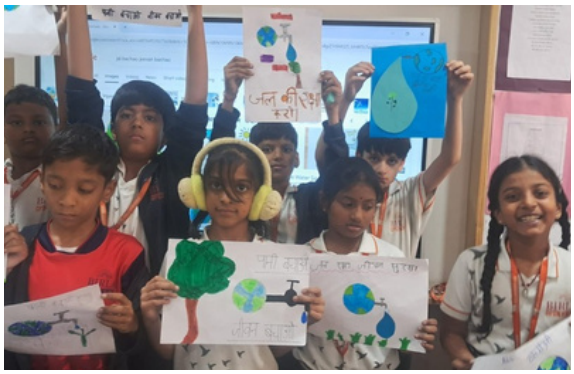

Hindi Activity on SDG 6

Grade 3 and Grade 4 students enthusiastically participated in an SDG 6 activity during their Hindi class, learning about the importance of saving water and adopting responsible water-use habits. Through engaging discussions and activities, students strengthened their language skills while understanding how conserving water helps protect our planet.

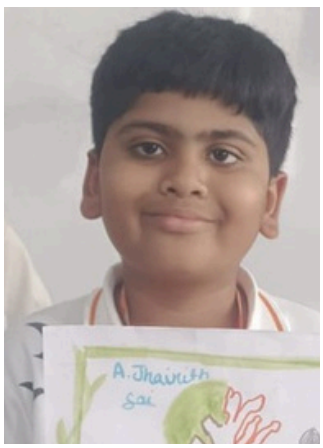

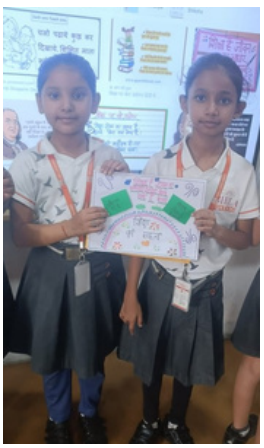

Grade 3 & 4- Hindi- Art Integration Activity

As part of Art Integrated Learning, students of **Grade 3** explored the **traditional food habits of Jharkhand and Telangana**. They learned how food changes from place to place based on culture and ingredients.

Students of **Grade 4** learned about the **festivals celebrated in Jharkhand and Telangana**. Through this activity, students understood how festivals reflect the culture, traditions, and lifestyle of different regions of India.

As part of learning about **SDG 4 – Quality Education, Grade 4** students participated in a creative activity titled "My Magic School." Through this activity, students imagined and designed their dream school

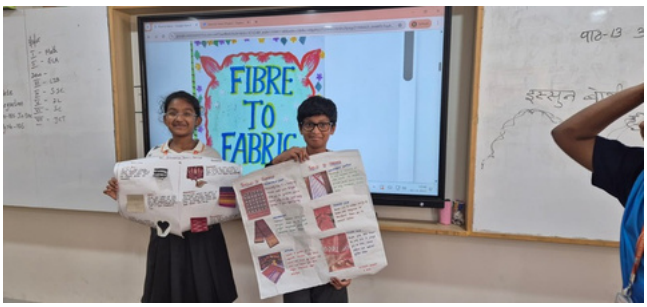

Grade 5- EVS Activity

Activity: Fibre to Fabric

Students participated in an engaging hands-on activity to understand how clothes are made from natural fibres. The activity helped students learn the journey of fibres—from cotton or wool—to the final fabric used in our daily life.

Greenhouse Effect Activity

Students conducted a simple yet effective experiment to understand the Greenhouse Effect using two bottles and a plant. One bottle was covered to trap heat, while the other was left open, helping students observe the difference in temperature and plant condition.

Grade 5- EVS Activity

Save Soil Activity

On the occasion of **World Soil Day**, students actively participated in a Save Soil awareness activity to understand the importance of soil in sustaining life on Earth.

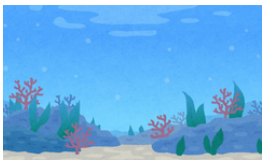

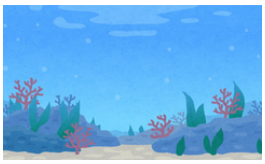

Grade 5 Activity – Aquatic Plants

Students explored the concept that aquatic plants have a waxy coating on their leaves through a simple and engaging hands-on activity. By applying Vaseline on a leaf and observing how water rolls off the surface.

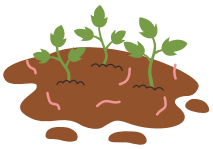

Grade 6 – Save Soil Poster Making Activity

Through art and meaningful messages, students learned about protecting soil for a sustainable future.

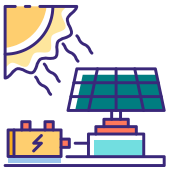

Grade 6- Science Activity – Making a Solar Cooker

Students took part in an exciting hands-on science activity by making a solar cooker. Through this experiential learning task, students understood how solar energy can be harnessed for cooking, learned about renewable energy sources, and explored eco-friendly alternatives to conventional fuels.

Grade 6 - Science
Water Filtration Activity

Students conducted a hands-on water filtration activity to understand purification and clean water practices. Through this experiential learning task, students explored how impurities can be removed from water using simple materials, strengthening their scientific thinking and awareness about safe and sustainable water usage.

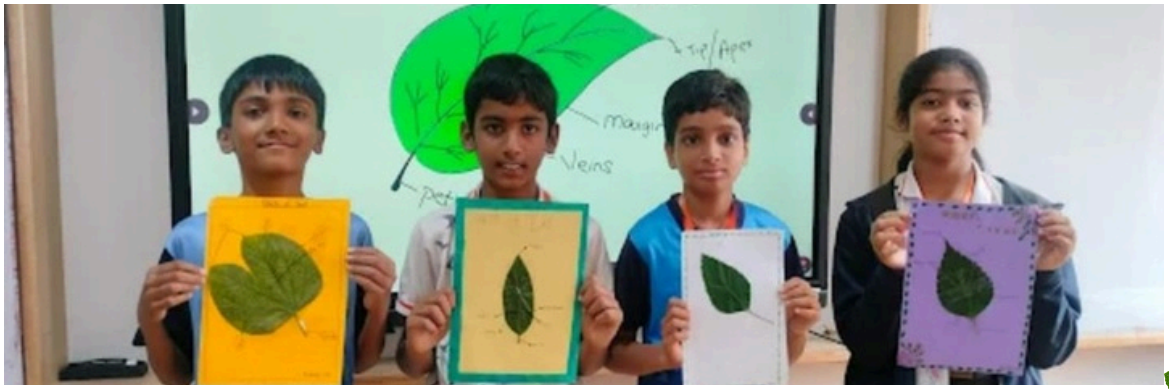

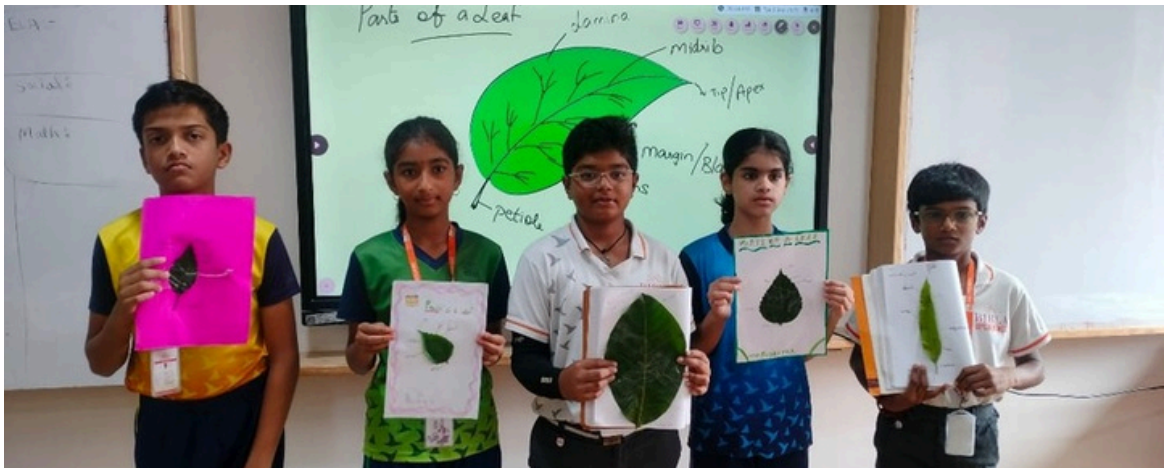

Grade 6 – Science Activity: Parts of a Leaf 🍃🔬

Students conducted a hands-on science activity to understand the parts of a leaf. By observing real leaves and identifying their structures, students gained a clearer understanding of leaf functions and plant biology. The activity promoted curiosity, observation skills, and experiential learning in an engaging way.

Students observed World Soil Day through an activity highlighting the importance of soil conservation.

Grade 7- Science Activity- Lungs Model

Grade 7 students created a lungs model to understand the structure and working of the human respiratory system. This hands-on activity helped students visualize how breathing occurs and how lungs function, making learning interactive and meaningful. The activity enhanced conceptual clarity, creativity and scientific thinking.

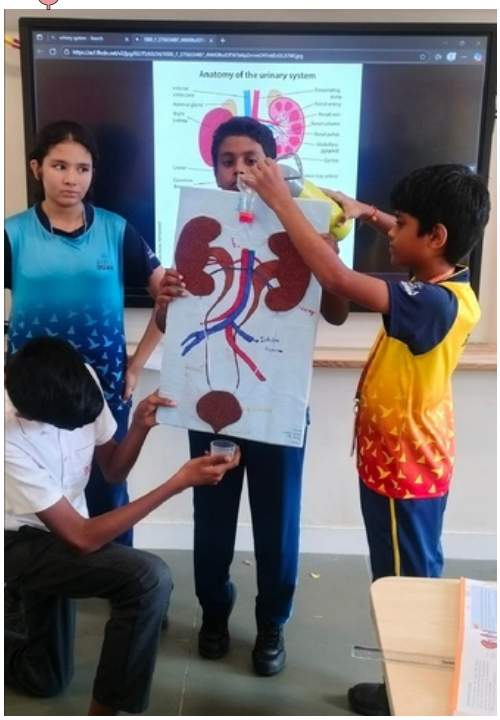

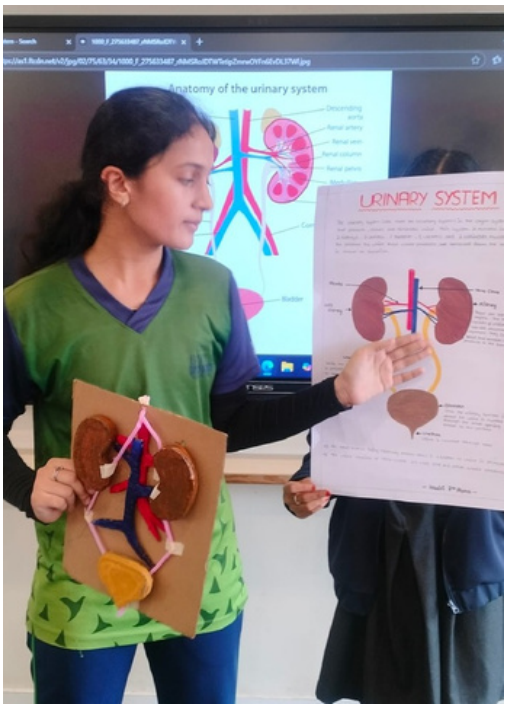

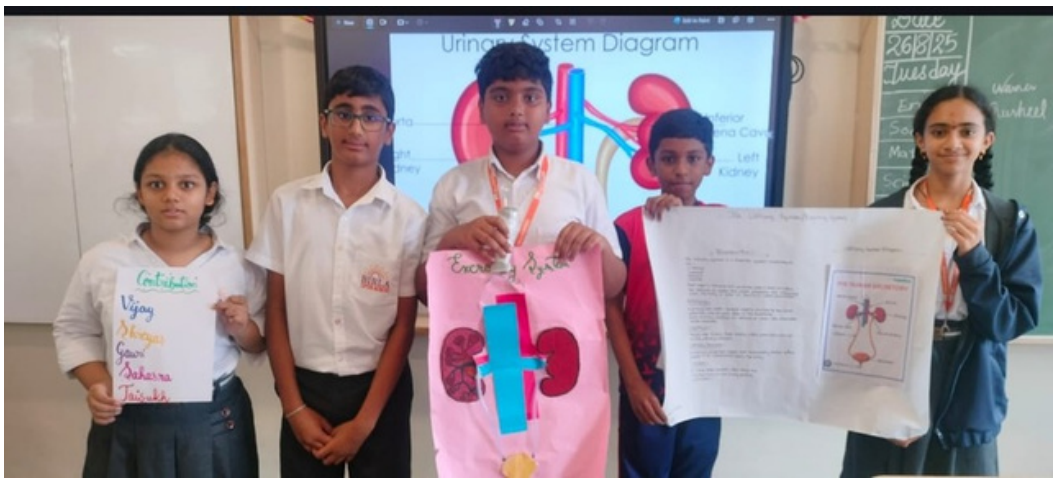

Grade 7 – Science Activity: Excretory System

Students conducted an engaging activity on the excretory system to understand its structure and functions. Through hands-on learning and visual models, students explored how the body removes waste and maintains internal balance. The activity strengthened conceptual understanding, observation skills and interest in human biology.

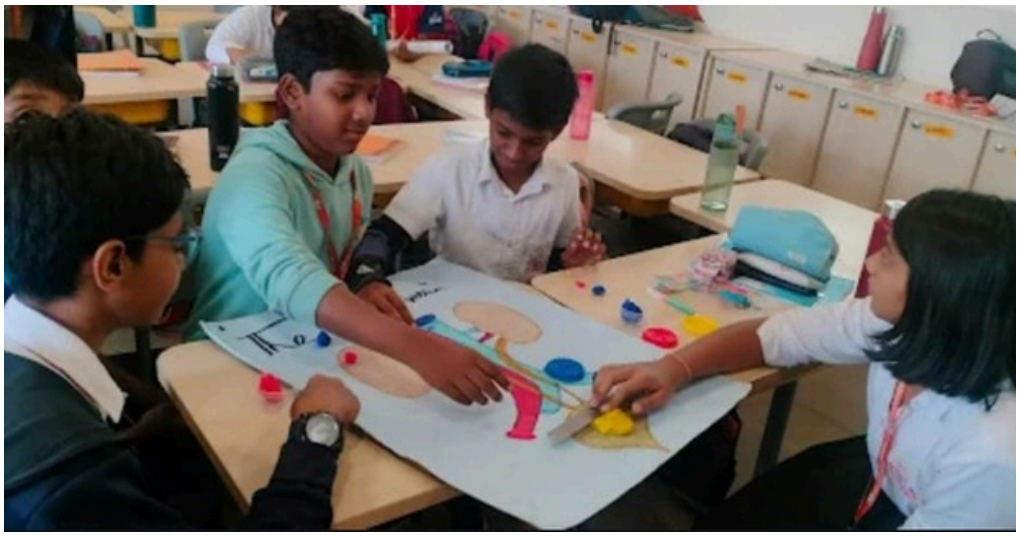

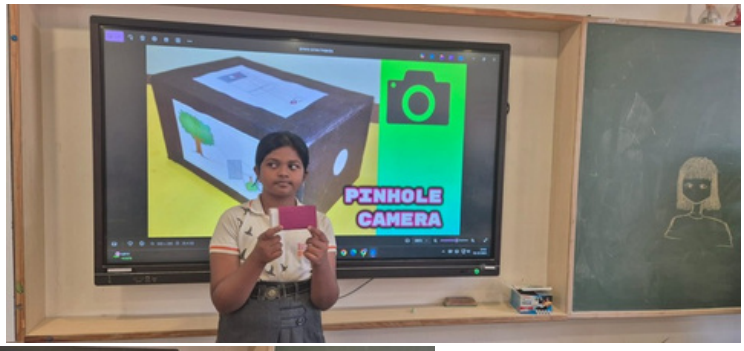

Grade 7 Science Activity: Model of a Pinhole Camera

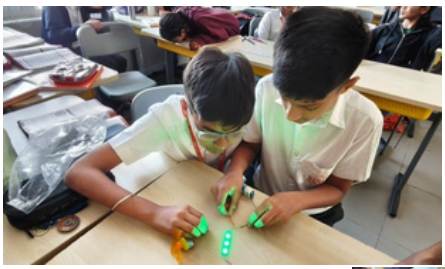

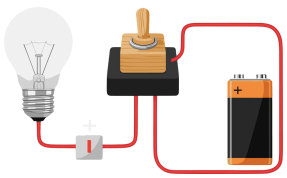

Students created a model of a pinhole camera. Through this activity, students explored the basic principles of light and image formation.

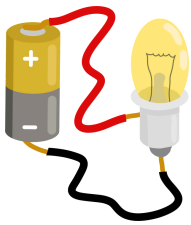

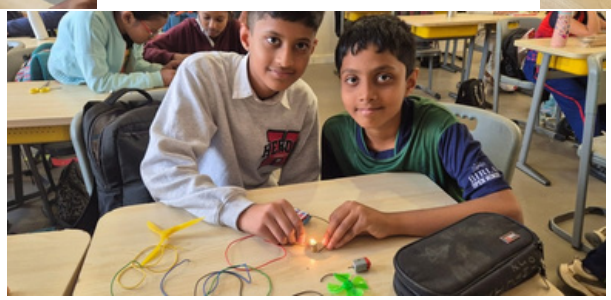

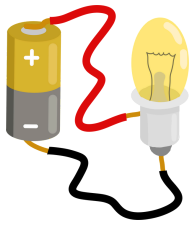

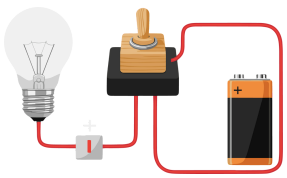

Grade 7 – Science Activity: Simple Circuit 🔌💡

Grade 7 students conducted a hands-on activity on building a simple electric circuit using basic components like a battery, wires, switch and bulb.

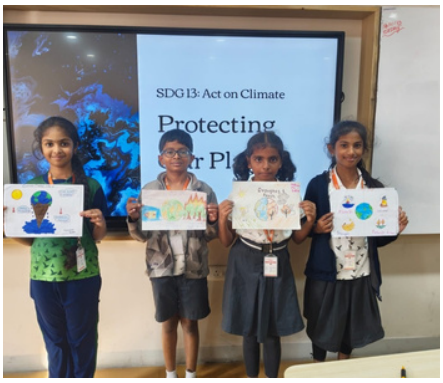

Grade 5- Social Studies

A session focused on **SDG 13: Climate Action** was conducted. The session was successful in building awareness about greenhouse gases, melting glaciers, rising sea levels, droughts and floods global warming and everyday actions to reduce our impact on climate deterioration.

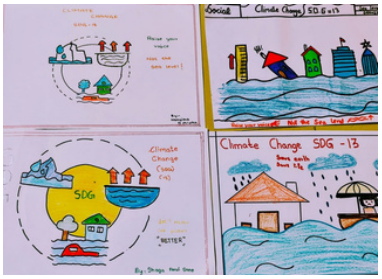

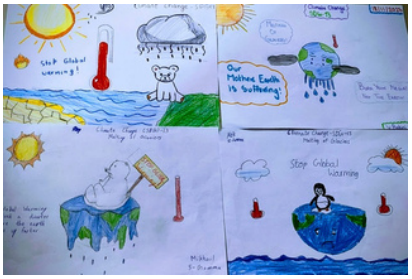

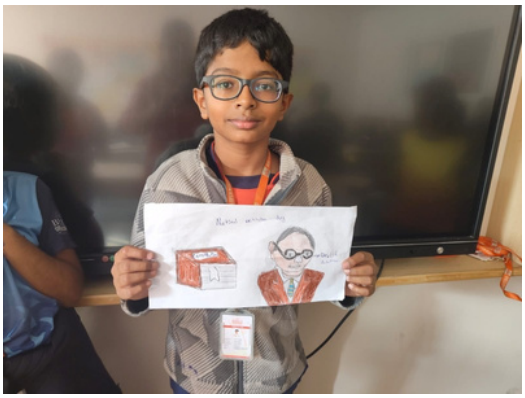

Grade 5 - Social Studies

Activity- National Constitution Day- 26th November

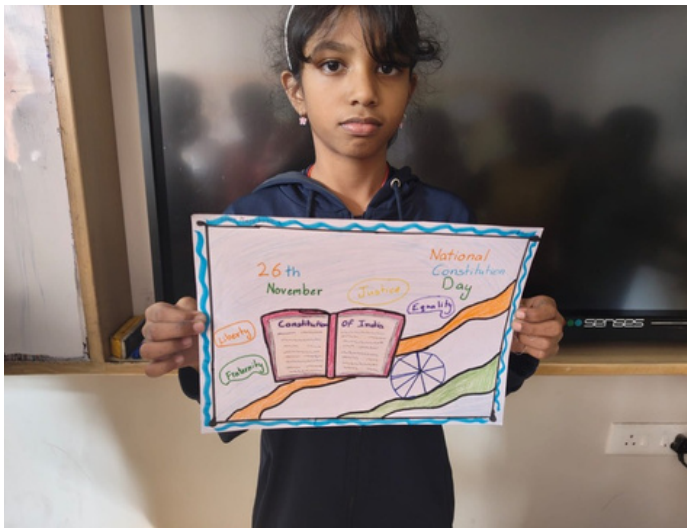

Students of Grade 5 observed National Constitution Day by creating posters to express their understanding of rights, duties and democracy. Through this meaningful activity, students reflected on the values enshrined in the Constitution and showcased their awareness of responsible citizenship and democratic principles.

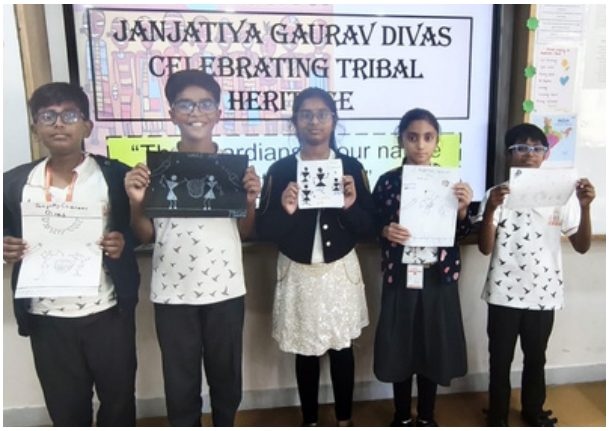

Grade 6- Social Studies

Janjatiya Gaurav Divas was celebrated by students to learn about and appreciate the traditions and identity of Janajati communities on November 15th, 2025.

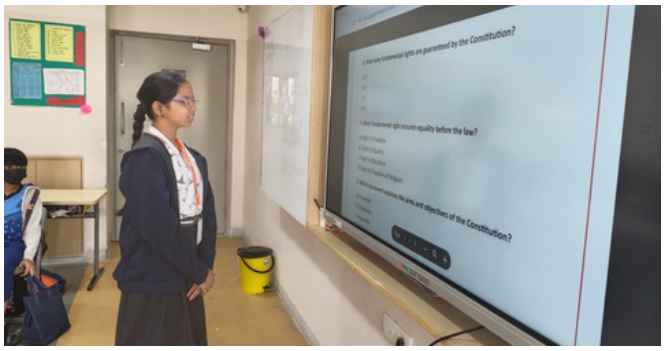

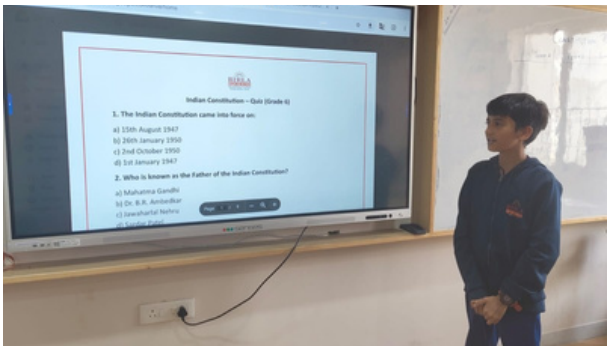

Grade 6-Social Studies

Students of Grade 6 celebrated **National Constitution Day** by participating in Constitution Day Quiz. The activity helped students strengthen their understanding of the Indian Constitution, fundamental rights, duties and democratic values in an interactive and enjoyable manner.

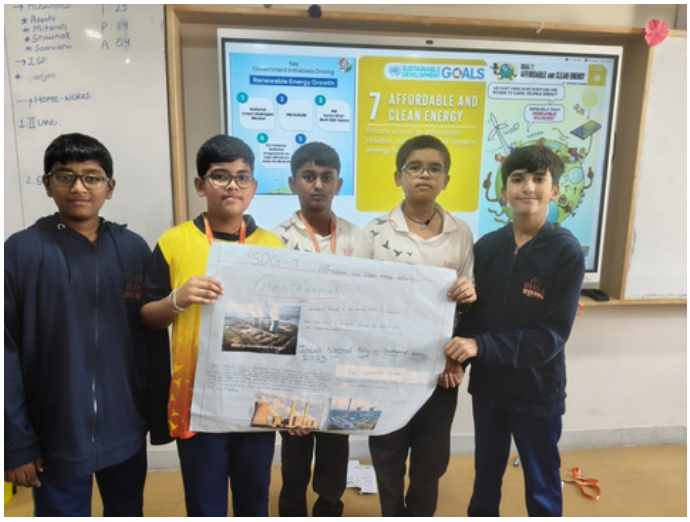

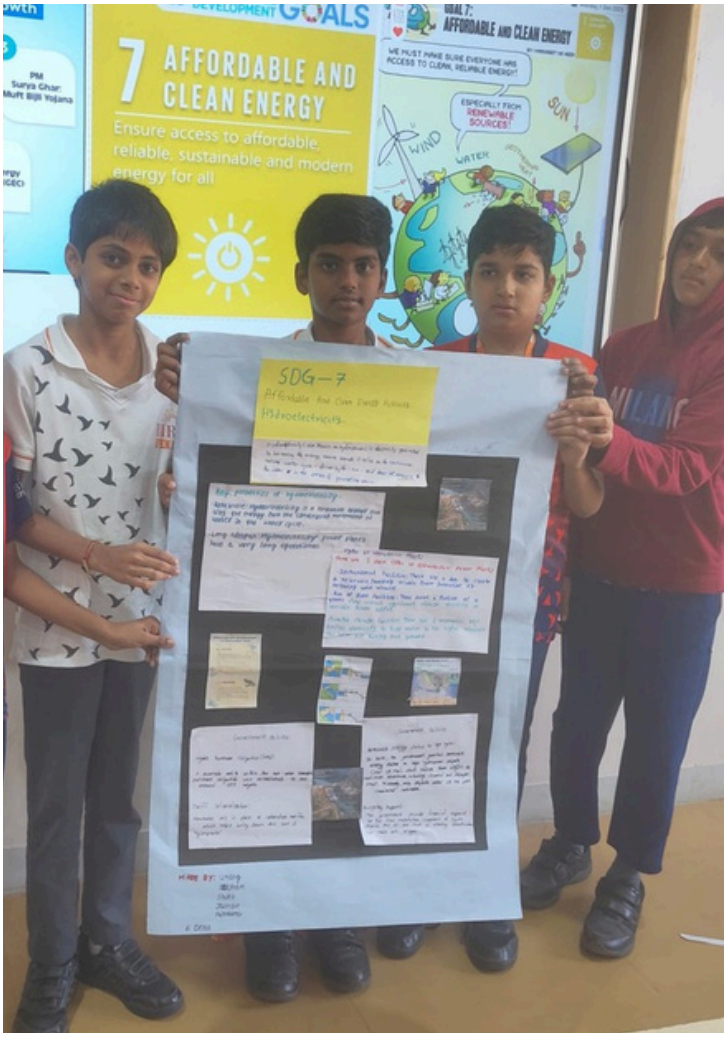

Grade 6- SDG 7 Activity

SDG 7 - Affordable and clean energy activity

Students made a presentation on various government policies for affordable and clean energy to ensure everyone has access to electricity, reduce pollution, fight climate change and support sustainable development.

Grade 7 & 8 - Social Studies

Child Marriage Free India

Poster Making & Pledge Activity

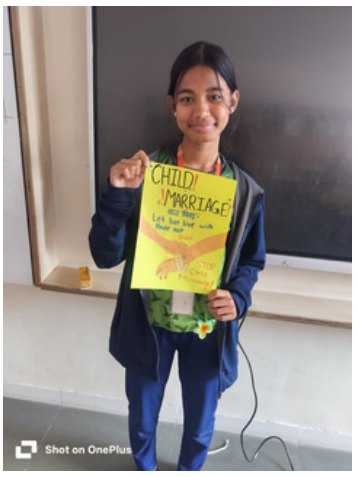

Students actively participated in a poster-making and pledge activity to spread awareness about Child Marriage Free India. Through powerful posters and a collective pledge, students voiced the importance of education, equality, and the right of every child to a safe and happy childhood.

Library Week- 10th November to 15th November

“Celebrate Reading, Discover Worlds” 📚

BOMIS Bandlaguda celebrated Library Week with a series of engaging and fun-filled activities. The enthusiastic participation of all grades made Library Week a delightful and successful event! The celebration was inaugurated with a Special Guest Talk by Mr. Tejasvi Vashistha, a remarkable 16-year-old author who has penned over 150 books.

Library Week- 10th November to 15th November

✨ Grade 8 – Blind Date with Books

Students explored books wrapped in mystery, choosing their reads based on curiosity rather than covers — a unique way to discover new genres and authors!

✨Grade 7- Book Cover Design

Our creative students participated in an engaging Book Cover Design activity. They reimagined the covers of their favourite books, blending creativity, colours, and concepts to bring stories to life in a whole new way!

✨ Grade 6 – Book Review Board

Grade 6 students wrote short book reviews, highlighted their favourite part of the story, and shared compelling reasons on "Why you should read it." Their thoughtful reflections showcased their understanding and creativity.

✨ Grade 5- Character Dress-Up

Grade 5 students stepped into the world of imagination by dressing up as their favourite storybook characters.

✨ Grades 3 & 4 – Creative Bookmark Making

Our young readers from Grades 3 & 4 designed beautiful, colourful bookmarks adorned with inspiring reading quotes. Their creativity added charm to the Library Week celebrations!

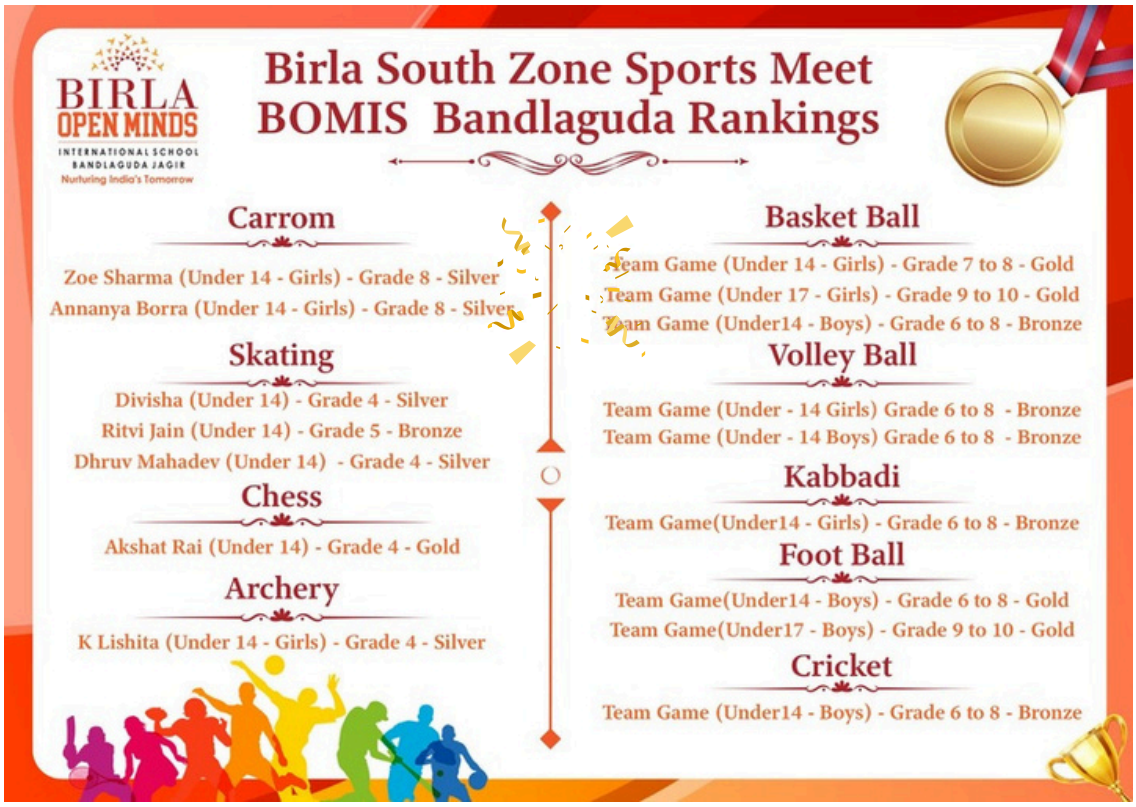

BOMIS Warangal Sports Meet

BOMIS Bandlaguda successfully shone at Birla South Zone Sports Meet 2025 at Warangal

Our talented young sport stars made us immensely proud at the recently concluded Birla South Zone Sports Meet 2025, held at the Birla Open Minds International School, Warangal Campus.

Congratulations!

BOMIS Bandlaguda Shines at Birla South Zone Sports Meet 2025 at Warangal (In Pics)

In Pics: Children's Day celebration at BOMIS Bandlaguda

Children's Day was celebrated with great joy and enthusiasm at BOMIS Bandlaguda. The day was filled with fun activities, laughter, and special moments as students enjoyed performances and games planned for them.

Proud moment for BOMIS Bandlaguda!
Children's Day Special Visit to Rashtrapati Bhavan

A student delegation from Birla Open Minds International School, led by **Principal Ms. Nishi Rana, visited Rashtrapati Bhavan on 14 November 2025**. **The team included Ahaana Khandelwal (Grade 4), Akshaya Reddy Pathi (Grade 6), Keyvan Khanna (Grade 7), and Kapishwar Atchutuni (Grade 8), along with their teacher, Mrs. Manasee Unniyal**. They had the honour of meeting the **Hon'ble President of India, Smt. Droupadi Murmu**. The visit was inspiring and memorable for the students.

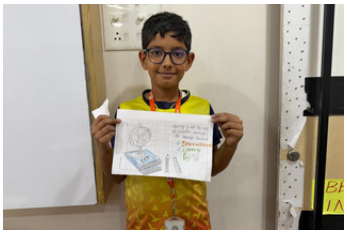

ICT Activity

Grade 3 & 4 – ICT Art Integration Activity on Literacy Day

On the occasion of Literacy Day, our Grade 3 and 4 students participated in an engaging Art Integrated ICT activity that beautifully blended creativity with technology. Students used digital tools to design posters, draw symbols and create simple digital artworks highlighting the importance of reading, writing and digital literacy.

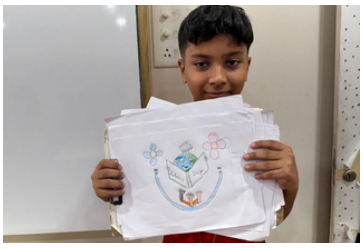

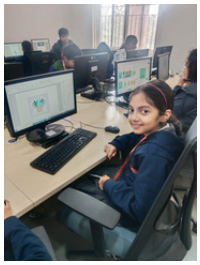

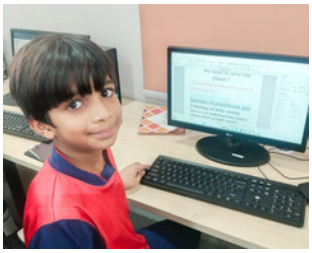

ICT- Grade 5 & 6
Art Integration based-Activity

Grade 5 students created a presentation on the topic “Save Planet” using Open Office Impress.

Objective: The project aimed to create awareness about environmental protection and the importance of conserving natural resources for a sustainable future.

Learning Outcome: Through this project, students demonstrated skills in slide creation, formatting text, inserting images, applying transitions and presenting information effectively.

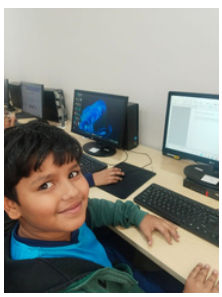

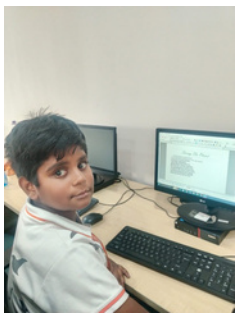

Grade 6: ICT Activity
Project Description: Save Planet – Scratch Animation

Objective: The project aimed to spread awareness about environmental conservation and the need to protect the Earth for future generations.

Learning Outcome: Through this project, students demonstrated an understanding of basic coding skills, logical thinking, creativity and problem-solving. The activity also enhanced students’ ability to express social and environmental messages using technology.

Financial Literacy- Grade 3 to 8 Activities

As part of the Financial Literacy curriculum, our Grade 3 to Grade 8 students enthusiastically participated in hands-on project activities designed to build practical money-management skills and real-world understanding.

Grade 3 – Make Your Piggy Bank:
Our youngest learners creatively designed their own piggy banks, learning the first essential habit of saving.

Grade 4 – Create and Sell:
Students explored entrepreneurship by creating simple products and understanding the basics of selling and earning.

Grade 5 – Mini Market:
Children set up a lively mini marketplace, experiencing buying, selling, pricing, and handling money responsibly.

Grade 6 – Needs and Wants:
Students identified and classified everyday items as needs or wants, helping them understand smart decision-making and budgeting.

Grade 7 – RBI Bank Brochures:
Learners created informative brochures about the Reserve Bank of India, gaining insights into its role and functions.

Grade 8 – Role of Ombudsman:
Students researched and presented the crucial role of the Banking Ombudsman in resolving customer grievances.

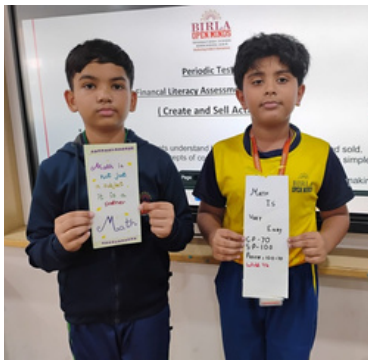

In Pics: Financial Literacy activites

Congratulations

Proud Moment for BOMIS Bandlaguda! 🌟

Birla Open Minds International School, Bandlaguda takes immense pride in sharing that our Principal Ms. Nishi Rana has been honoured with the India IKA K-12 Award for achieving excellence in promoting 21st-century skills among students.

The Unseen Within-Magical Realms of Disney (Annual Day 1-19/12/2025)

BOMIS Bandlaguda successfully organized Day 1 of its Annual Day celebrations, celebrating the creativity and talent of our students from **Grades 3 to 5.**

The evening featured captivating performances that brought beloved Disney stories to life. The event commenced with the warm welcome and felicitation of the Chief Guest, Prof. D. S. R. Rajender Singh, Joint Director, Commissioner of Collegiate Education. This was followed by the traditional lamp lighting ceremony led by Principal Ms. Nishi Rana, Vice Principal Ms. Sunita Kapoor and Headmistress Ms. Narmada.

Honourbale School Directors Mr. Sandeep Yalamanchili and Mr. Dega Vishnu Vardhan Reddy graced the event.

In Pics: Prize Distribution Ceremony (19/12/2025)

The Prize Distribution Ceremony was a proud and joyous moment as we honoured our student achievers across various categories.

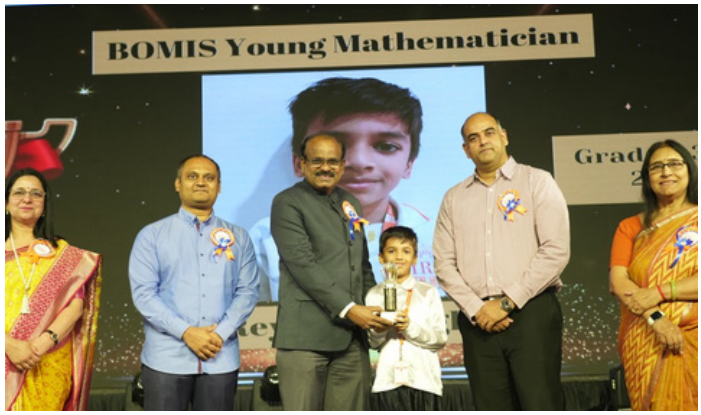

The Prize Distribution Ceremony was a proud and joyous moment as we honoured our student achievers across various categories.

BOMIS Student Achievers (2024–25)

- **Director's Cup – Star Performer- Chinnapeesari Heyansh Reddy- Grade 4 Beta**
- **Principal's Cup – Most Disciplined Student- Dhairya Bansal- Grade 3 Epsilon**
- **Merit Certificate (Attendance – 98%)- Hridyansh Singh- Grade 3 Alpha**
- **Kruthi Atchutuni- Grade 3 Eta**
- **Merit Certificate (Attendance – 96%) Vedansh Ijjurouthu- Grade 4 Epsilon**
- **Scholar's Badge Hridyansh Singh- Grade 3 – Alpha**
- **Mahasvin R.- Grade 3 Gamma**
- **P. Tanvi- Grade 3 Epsilon**
- **Sathviki Tadepalli- Grade 4 Beta**
- **Aadya Mashetty- Grade 4 Beta**
- **C. P. Heyansh Reddy- Grade 4 Beta**
- **Moksha Kuchi- Grade 4 Zeta**
- **Atharva Agarwal- Grade 4 Eta**
- **BOMIS Young Mathematician- Reyansh Singh- Grade 3 Delta**
- **Best Class - Ms. Susana- Grade 4 Alpha**
- **SDG Champion Award Ms. Sulakshana with Class Monitors- Grade 5 Epsilon**

In Pics: Enchanting Performances of Disney Magic (Annual Day 1)

The Disney-themed Annual Day featured a delightful blend of dance, drama and gymnastics that beautifully woven the magical realms of Disney characters.

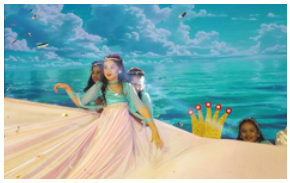

AURORA: Illuminating Pathways for tomorrow
(Annual Day 2- 20/12/2025)

BOMIS Bandlaguda proudly organized its Annual Day celebrations for **Grades 6 to 10** on December 20, showcasing the creativity, confidence and talent of its students. Day 2 was themed around the **Sustainable Development Goals (SDGs)**. The event was graced by the esteemed Chief Guest, Smt. Abhilasha Bisht, Director General of Police. The celebration was honoured by the presence of the School Directors - Mr. Sandeep Yalamanchili and Mr. Dega Vishnu Vardhan Reddy. The programme began with the traditional Lamp Lighting ceremony led by the School Principal Ms. Nishi Rana, Vice Principal Ms. Sunita Kapoor and Headmistress Ms. Narmada, followed by an impressive series of amazing performances.

Prize Distribution Ceremony honoured students for their excellence and dedication.

Prize Distribution Ceremony honoured students for their excellence and dedication.

BOMIS Student Achievers 🌟 (Grade 5 to 10) (2024-25) CBSE 10TH Board exam Toppers

1st- Lassya Reddy Baddam

2nd- Lekhya Reddy Baddam

3rd- Amey Josh Gadagottu

3rd- Soham Ajay Baveja

Director's Cup (Student of the Year Award- All Round Excellence)- Amrutha Deeksha Alahari

Director's Cup (Star Performer)- Tanish Naidu

Principal's Cup (For the most disciplined Student of the Year)- Aditi H Nambiar

Merit Certificate- • P. Deekshitha

• Vanshika Reddy

• Satvik Pabbaraju

• Raghav Ramsisaria

• Tanish Naidu

Sports Star of 2024-25- Amrutha Deeksha Alahari (Grade 10)

Sports Star of 2024-25- Sai Sanidhya (Grade 5)

Cockhouse Trophy (Best of 4 Houses)- AMBITION

Best School Prefect Award- Krithika Reddy

Outstanding Leadership Award- Advaith Nair

Scholar's Badge •

Krishang Pratyush Parmar

• Satvik Pabbaraju

• Nivedita T.

• Tanish Naidu

BOMIS Young Scientist of 2024-25- Vanya Issar (Grade 10)

BOMIS Young Scientist of 2024-25- Mihraan Ullah

BOMIS Young Mathematician- Sai Bhardwaj

Best Class of the session- Ms. Summaiya Baig

SDG champion Award- Mr. Rakesh with 2 class monitors (Grade 8 Gamma)

Inspiring Teacher of 2024-25- Ms. Snehlatha (HoD Mathematics)

100 % Attendence Award – Ms. K. Supriya

Students delivered powerful performances in a series of stellar dance, drama and thematic presentations, leaving the audience truly inspired.

पेड़ की आत्मकथा

मैं एक पेड़ हूँ। मेरा जन्म इसी मिट्टी में हुआ है । बरसों पहले मुझे किसी ने बोया था ।पहले मैं एक पौधा था, एकदम नाज़ुक और कोमल। जब-जब बारिश का मौसम आता तब-तब मैं तेजी से बढ़ने लगता । मुझे बारिश और सूरज की किरणें बहुत पसंद हैं ।

शुरुआत में जब मैं छोटा था । तब मुझे बहुत परेशानी झेलनी पड़ती थी। छोटे होने के करण सारे जानवर मुझे परेशान करते थे। मुझे खाने की कोशिश करते थे । अब मैं बड़ा हो चुका हूँ। छोटे पौधों से अब मैं एक वृक्ष बन गया हूँ। अब मैं सारे मौसम के साथ ढल चुका हूँ। धूप हो, आंधी तूफ़ान हो मैं बिलकुल भी नहीं डगमगाता। अब मैं मनुष्य को अपनी शीतल छाया देता हूँ। फल-फूल देता हूँ । मेरी छाया में लेट कर मुसाफिर आराम करते हैं।

लकड़ी,कागज,मसाले,सब्जियां,औषधियां,ऑक्सीजन मनुष्य को देता हूं । मेरे बिना मनुष्य का जीवन असम्भव है। मेरे इतने सारे फ़ायदे होने के बाद भी इंसान मुझे बड़ी इमारत बनाने के लिए काट रहे हैं। इसका दुष्परिणाम भी उन्हें झेलना पड़ रहा है। मुझे हमेशा डर लगता है कि कोई कुल्हाड़ी चेला कर मुझे काट ना दे ।
